Shiites Surge **Into Politics** In Pakistan

By Richard M. Weintraub Washington Post Service
ISLAMABAD, Pakistan — A

militant new force of pro-Iranian Shiite Moslems has entered Paki-stan's turbulent political scene, further complicating this country's ef-forts to maintain close relations with the United States and Arab states of the Gulf while also seeking to forge close ties with Tehran. A crowd estimated at 100,000

gathered in Lahore earlier this month to launch a new Shiite political party that openly advocates closer ties with Ayatollah Ruhollah Khomeini's Shiite fundamentalist government in neighboring Iran. Party spokesmen warned that no opposition to Ayatollah Khomemi or the Iranian revolution would be tolerated.

Within 48 hours of the Lahore meeting, 13 houses occupied by anti-Khomeini refugees in Karachi and Quetta were attacked with submachine guns, grenades and bazooka-type weapons. At least three supporters of Mujahidin Khalq, the leftist Iranian opposition group, were killed and many were

After the attack, 13 men were taken into custody in Quetta and subsequently identified as members of the Iranian Revolutionary Guard. The Karachi attack is also believed to have been carried out by Revolutionary Guard members who slipped into Pakistan. The head of the new Shiite party says seven members of his group's militant youth wing also were arrested in connection with the attack

Despite the arrests, the Pakistani government has made no major public protest to Iran. Indeed, it has begun rounding up many anti-Khomeini Iranians who had been settling in the Karachi area.

A Pakistani official, asked about See SHITTES, Page 2

Latest Takeover Rumor: 'Belgium Itself'

By Peter Maass International Herald Tribune

BRUSSELS - All of a sudden, Belgium's close-knit financial world is abuzz over a startling development. The country's largest and most prestigious holding company, Société Générale de Belgique, may be the target of a hostile takeover bid by foreigners.

"It would be considered like a takeover of Belgium," an official at the company said. Indeed, the monolithic "Generale," as the company is called, controls, directly or indirectly, nearly half of Belgium's 50 largest companies. Its Brussels headquarters are virtually flanked by the prime minister's office and the royal palace, a cozy geographical relationship that is not a mere coincidence.

"It has a finger in every pie in Belgium,"

said Susanna Hardy of James Capel & Co.,

the London brokerage. "It has been involved

Since last month, nearly 8 percent of the company's shares have changed hands, with most of the stock apparently purchased by the same buyer. Unlike in Britain and the

United States, there is no law in Belgium requiring buyers to identify themselves after amassing a big stake. This has created a bull market in rumors. GULF:

Convoy Advances (Continued from Page 1)

Phantom jets flew toward the warships from an air base at Bandar Abbas but turned back after a U.S. warning, American officials in the Gulf said.

Captain William Mathis, skipper of the convoy's guided-missile cruiser Fox, said the trip so far had been calm.

"The transit has been, with the exception of some F-4 activity at Bandar Abbas, very, very benign, he said.

The empty tankers were expected to reach Kuwaiti oil terminals shortly after daybreak Friday. They will first have to pass an area where Iranian Revolutionary Guards in speedboats launched two attacks on ships, on July 9 and

July 13.
Then they enter a narrow channel leading to the terminals, where mines, believed planted by Iran, have blasted holes in four vessels since May 16. Kuwait says the channel is now clear.

Iran has bitterly criticized the U.S. operation, and its foreign minister, Mr. Velayati, has asserted that the reflagged tankers will be carrying oil for Iraq. Mr. Velayati, in a message to the

UN secretary-general, Javier Perez de Cuellar, said that as long as Iran's oil is under threat from Iraq, "Iran cannot permit Iraq's oil to be protected" in Kuwaiti tankers "under whatever flags they may sail." Kuwait and Saudi Arabia sell oil

from their so-called Neutral Zone on behalf of Iraq, whose main Gulf outlets were closed early in the war. Both nations support Iraq in the war with Iran.

But oil sources in Kuwait said none of this oil was due to move in U.S.-flag vessels. Oil from the zone was not connected with the Kuwait Petroleum Corp. or the Kuwait Oil Tankers Co., which owns the U.S.registered tankers, they added.

Iran has said it will only attack shipping if Iraq does. Mr. Velayati reiterated this position in Bonn on

Although Iraq said Wednesday that it would implement the UN resolution if Iran did, Baghdad's ambassador to Washington, Nizar Hamdoon, said his country intended to maintain the right to attack shipping in Iranian waters.

Diplomats in Baghdad, however. said Iraq was likely to refrain from raiding Gulf shipping while the United Nations tries to persuade Iran to accept the peace resolution. (Reuters, AFP)

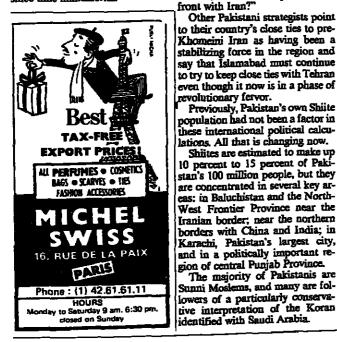

■ U.S. Reiterates Stance

President Ronald Reagan's national security adviser said Thursday that the United States would continue escorting tankers in the Gulf until the threat against com-mercial vessels diminishes, The Associated Press reported from

oil tankers did not signal a ward Iraq in the Gulf war.

"We are defending ourselves," Mr. Carlucci said. "Because we defend ourselves against terrorists, or our ships defend themselves against attacks on the high seas, does not mean we become a participant in a war."

"We have no intention of engag-ing in the war," he continued. "We have made it repeatedly clear that we are not being provocative in any way. We are simply escorting U.S.flag vessels on the high seas, a role ed: "Tell me: We are fighting with that the U.S. Navy has carried out India, with Afghanistan, with the

Police, pelted with stones, fired Thursday at protesters in Dhaka, Bangladesh.

Police Kill 8 During Strike in Bangladesh

DHAKA, Bangladesh — The police shot and killed at least eight persons, and nearly 200 were injured in widespread violence Thursday on the second day of an opposition-led general strike in Bangladesh, witnesses and officials said.

Large areas of Dhaka, the capital, with a population of four million, became a battleground after witnesses said that riot police had shot and killed

five persons while trying to break up street fighting between opposition demonstrators and government supporters.

Officials in Khalispur said that one person was

killed in the southern town when police fired weapons to disperse anti-government demonstrators there. Two other opposition activists were killed by the police, in the northern town of Sirajganj and in the port city of Chittagong.

SHULTZ: Secretary Asserts He Was Kept Uninformed

funds for Mr. Shultz's official air

Early in his testimony, Mr. Shultz told Mr. Belnick he did not know that Mr. Reagan had signed any document authorizing secret arms sales to Iran until he beard it from Mr. Poindexter at a White

House briefing Nov. 10, 1986. He also said he knew nothing about Mr. Reagan's initial approval of the arrangement on Dec. 5, 1985, until "it emerged in the course of these hearings."

Mr. Shultz said Defense Secre-tary Caspar W. Weinberger told Mr. Reagan in strong terms, in December 1985, that he and Mr. Shultz opposed any plans to sell arms to fran.

It was not, however, until Mr. Shultz told Mr. Reagan a year later that Colonel North's private emissaries were discussing obtaining the release of terrorists imprisoned in Kuwait that "I finally felt that the president deeply understands that something is radically wrong here." the secretary of state said.

He said he was disgusted when he learned many months after the The adviser, Frank C. and Asia.

TOKYO - Mikhail S. Gorbachev's proposal to scrap all intermediate- and short-range nuclear missiles worldwide received a cautious welcome Thursday from countries in East Asia and Europe.

The reaction, however, came beore Soviet officials on Thursday reiterated their position that 72 short-range Pershing 1-A missiles. in West Germany, with muclear warheads controlled by the U.S., must be eliminated as part of a superpower arms accord.

In Brussels, NATO sources said the offer by the Soviet leader to eliminate the two smaller categories of missiles worldwide appeared to meet basic NATO demands. But they said that Mr. Gorbachev's words had to be translated into concrete proposals at the negotiat-ing table in Geneva.

"The devil is always in the fine print," a diplomat in Brussels said.
"We have to see this proposal written down in Geneva."

The offer was announced Wednesday by Tass, the official Soviet news agency. In West Germany, Foreign Min-

ister Hans-Dietrich Genscher hailed the overture as a "substan-tial step forward." Mr. Genscher said the Soviet plan would greatly aid efforts to verify complis the superpowers with their armsreduction accords

Britain will "warmly welcome" the Soviet offer if there are no conditions attached when it is formally offered at Geneva, Prime Minister Margaret Thatcher said Thursday. Mr. Gorbachev specifically pro-

Calling the Pershing 1-A missiles the property of West Germany, Marshal Akhromeyev said, "The point at issue is the scrapping of all the U.S. warheads to these misposed removing all Soviet mediumand short-range nuclear missiles in Asia, calling the concept a "global double zero.

"The offer means that the Sovitold the Japanese parliament. He said the proposal should be welltold the proposal should be wellthem into other weapons. Earlier in the Geneva negotiations, the U.S. had proposed converting in the comed.

Masaharu Gotoda, the chief cabinet secretary, said the offer agreed with Japan's demands for the chimination of nuclear missiles in Asia but said it needed to be carefully examined.

In Seoul, the Dong-A Ilbo newspaper said the offer removed a verifying that the missiles are being eat hurdle in the Geneva arms great muse. hmitation talks. "Gorbachev's latest offer ap-

WORLD BRIEFS

Soviet Admits 1944 Injustice to Tatars

MOSCOW (AP) — The Soviet news agency Tass acknowledged Thursday that the Crimean Tatars had been victims of injustice under Stalin and said that a commission had been formed to determine how to deal with problems raised by their deportation.

During World War II, the Tatar inhabitants of the Crimean Peninsula

in the Ukraine were accused of collaboration with the Nazis and deported by the Soviet authorities, Tatar activists say that 110,000 people died from starvation or cold during the forced relocation. The rest of the Crimean Tatars settled around the Ural Mountains and in Siberia. Qian Qichen, said in an April inter-

violence, police officials said.

The bus attacks spatted Hindu-Moslem clashes, and at least one person was stabbed, the police said. Moseur, which is about 42 miles (67 kilometers) north of New Delhi, has been plagued for the last several months by sporadic Hindu-Moslem rooms.

North Korea Proposes Troop Cuts

TOKYO (WP) — North Korea has proposed a troop reduction plan that it said could ease tensions on the Korean peninsula and eventually lead to unification with non-Communist South Korea.

The plan, according to a North Korean news agency report monitored.

Thursday in Tokyo, calls for the two Koreas to shrink their armies to fewer than 100,000 troops within the next five years. North Korea said it would demobilize 100,000 soldiers by the end of this year as a sign of good faith. There was no official comment on the plan from South Korea.

Once both forces were reduced, the North Koreans said, the United States would withdraw its forces from South Korea. North Korea has more than 800,000 troops, according to Western analysts. South Korea has 600,000 soldiers, aided by more than 40,000 U.S. troops.

One Killed, 8 Held in Raid on Basques

SAN SEBASTIAN, Spain (Ranters) - A woman was shot and killed san senas item, span (senses) — A woman was snot and anied and eight persons were detained when the police smashed what they believed to be a commando group of the Basque separatist organization, ETA, the regional government said Thursday.

A spokesman said the woman, a suspected member of ETA, which stands for Basque Homeland and Freedom, was killed in an exchange of the paper.

stands for Basque Homeland and Freedom, was killed in an exchange of fire when the police raided an aparament on the outskirts of this Basque city Wednesday night. She was identified as Lucia Urigoitia, 28.

The police detained eight persons in that raid and others in villages around San Sebastian overnight. The spokesman said the group was suspected of having killed five persons and injured nine in attacks carried out during the past seven years. The police found grenades, submachine guns, pistols, explosives, cables and other bomb making materials.

Vatican Synod to Discuss Role of Laity VATICAN CITY (Reuters)— More than 230 cardinals and bishops and 50 lay observers will discuss the role of the laity in the Roman Catholic Church during a sworld synod of bishops in October, Vatican

officials said Thursday.

The meeting in the Vatican fram Oct. 1 to 30 will be the seventh regular world synod since Pope Paul VI inaugurated the gatherings in 1967. It

will also be the biggest.

The synod's general secretary, Archbishop Jan Schotte of Belgium, said
the final selection of lay observers had not yet been made by Pope John

Paul H. He could not comment on reports that they would include President Corazon C. Aquino of the Philippines.

For the Record

Three Israeli Army soldiers and five reservists with AIDS have been dismissed to my to prevent the inread of the disease, military sources said. Thursday in Tel Aviv. A health official said that 33 persons with the nime deficiency syndrome virus had died in Israel. (Reuters) South Africa objected strongly on Thursday to allegations from Mozambique that it was responsible for the massacre of 380 civilians in Mozambique on Saturday. The Foreign Ministry said it had asked South Africa's trade representative in Maputo to deliver a note of protest. (AFP)

African foreign ministers asked the European Community on Thursday to postpone for at least two years a ban on landing rights for the noisy and aging airplanes owned by many African airlines. A reprieve would give the airlines time to replace the old planes, a spokesman said in Addis Ababa where the Organization of African Unity is meeting. (Reuters) Three Jesuit priests were kidninged Wednesday in southern Sudan, their order reported Thursday in the Varican City. The Jesuits said they had no information about those responsible for the kidnapping. (Reuters)

TRAVEL UPDATE

United Plane Lands on Closed Runway DENVER (UPI) - A United Airlines pilot "inadvertently" landed a

DC-10 carrying 152 people on a closed runway where maintenance workers were replacing the lights in the center lane, according to a spokesman for Stapleton International Amport. There were no injuries in the incident Tuesday night, the spokesman said. On Wednesday, a United Airlines spokesman said the plane had pulled off the runway more than a mile away from the maintenance workers.

Road accidents in Italy caused 549 deaths in the first three weeks of this month as Italians began their vacation exodus from cities, an increase of 7 percent over the same period last year, police reported in Rome. (Reners) A British Airways TriStar carrying 248 people abandoned its landing at Heathrow airport seconds from touchdown because the runway was blocked by a Pan Am jumbo jet carrying 280, a British spokesman said.

French security officers found what looked like a hand grenade in the baggage of a person bound for New Delhi on an Air-India flight at Charles de Gaulle Airport on Wednesday. Thousands of passengers were evacuated from large sections of the Paris airport, but the object turned out to be a cigarette lighter, an airport official said. The incident delayed flights for about 30 minutes before the alert was called off. (UPI)

Hungarian customs sufficiely have temporarily suspended demanding hard-currency deposits from Polish travelers, the Hungarian news agency

was captured July 19 in Chontales Province, about 125 miles (200 kilometers) southeast of the capital. Mr. Ortega said. He said an airplane flying north from Costa Rica dropped a small team of paratroopers and their weapons. The missile, tween car tires to cushion its fall, was among the weapons. . The rebel pararroopers escaped, according to Mr. Ortega, but a San-

dinist unit blocked them from retrieving the weapons. The Sandinists also captured four parachutes and three helmets at the site, not far from where a resupply plane carrying Eugene Hasenfus, an American cargo handler, was shot down in October 1986.

Mr. Ortega displayed the U.S. Army Redeye, with the missile still ready to fire inside the launcherbarrel, at a news conference, along with the parachutes and helmets.

He said that since 1985, the United States had given the contras about 200 anti-aircraft weapons, including Redeyes and Soviet-made SA-7 missiles. He predicted that the rebels, in desperation, would sell some of the missiles on the Central American black market in exchange for other weapons.

Mr. Ortega suggested that leftist gnerillas fighting the U.S.-sup-ported government in El Salvador might buy some of the missles. This may have been intended to pave the way for the Salvadoran rebels, allies of the Sandinists, to obtain and use anti-aircraft missiles against more than 70 U.S.supplied military helicopters in El

In the past, Mr. Ortega has warned that if Washington provided Redeyes to the contras, the San-dinists would feel justified in giving anti-aircraft weapons to the Salvadoran rebels.

"We are not going to dig into our arsenals and tell the Salvadorans, now we have these for you," he said. He added, "At any rate, if we do that we're not going to talk about it."

Mr. Ortega stressed his view that contra leaders, particularly those operating in southern Nicaragua, have suffered sharp setbacks and no longer control what their forces do with weapons given them by the

United States. He also warned that the rebels could commit acts of terrorism with the missiles and accused the United States of endangering com-

mercial aviation in the region. According to the defense minister, special Sandinist units captured a drop on Feb. 20 in Central Zelaya Province, recovering 7,000 pounds (3,180 kilograms) of am-

munition and supplies. In early May in southern Rio San Juan Province, ne said, Sandin-ist proops ambushed eight contra with special consisters to treat the property of the contribute to ozone, an air pollutant that causes

Public Works Efforts

But he is proving to be a dynamic president of this Caribbean country, fighting waste and corruption, directing a huge public works about 35,000 government jobs and has used the money to pay for his public works projects, which have created employment for nearly 100,000. He is a frail figure, 5 feet 4 inches tall (1.63 meters), stooped and shuffling. But in the 11

But he has fallen behind in payments on the country's foreign debt of nearly \$4 billion and is facing tough negotiations with the International Monetary Fund.

Austerity measures imposed by the fund helped restore equilibrium to the Dominican Republic's finances, but they are also believed to have contributed to the defeat of Mr. Balaguer's predecessor, Salvador Jorge Blanco. Mr. Balaguer says he will not follow the same course.

frugally in a garage apartment, is at his deak in the presidential palace nine or 10 hours a Mr. Balagner is being tested these days by an outbreak of protest marches and strikes, demands for an increase in the minimum wage from about \$3 a day to about \$5 and the threat of runaway inflation. But there is no. sign that these problems will overwhelm him. The protesters say they just want some of his public works projects for their neighbor-

> He is probably the most experienced administrator and statesman to serve as president of the Dominican Republic, a nation of 6.5 million people that shares the island of Hispaniola with Haiti.

He was elected to three consecutive terms as president, beginning in 1966. Before that he worked for nearly 30 years as a diplomat and cabinet member under the dictatorship of Rafael L. Trujillo. Shortly before being assassinated in 1961, Trujillo appointed him president. He served 18 months before going into exile in New York.

Critics say Mr. Balaguer has given little attention to the overall finances of the country, including the operation of nearly 80 state companies and agencies, ranging from the waterworks to the national airline, all of which have been losing money for years.

Political opponents welcome some of the works projects, but they accuse him of creating monuments to himself and say he should be investing in income-producing activities like large-scale farming and spending more on health and education.

The left had been haunted by memories of the repression during Mr. Balaguer's first 12 years in power. "He used to say there were people in the army who were uncontrollable," said Rafael

Herrera, the editorial director of Listin Diario, the republic's most influential daily. "But now he's controlling the uncontrolla-

The Admiral's Iran Policy

contra hearings, Rear Admiral John Poindexter charged Congress with looking at the little picture, the trivia - deceit within the administration, lies to Congress, laws twisted here and there. He challenged critics to focus on the national interest, on policy.

Grant the point: The investigating committee probably did spend excessive time trying to trip up the admiral on some of his implausible statements. But then what about his Iran policy?

Even as he left the witness stand, the former national security adviser saw no reason to apologize or express regrets for what he calls "the Iran project." For nearly a week, the admiral condescended to Con-gress, explaining that critics simply misrep-resented shrewd diplomacy that might still - if allowed to flourish in secret - moderate Iran's behavior, free hostages and even bolster democracy in Central America.

In fact, however, beyond the deceptions and still-unaccounted-for diversion of arms profits to the Nicaraguan contras, the Iran project was naïve in conception, amateurish in execution and devastating in its impact on U.S. interests in the Gulf. Imagine Admiral Poindexter's or Lieutenant Colonel Oliver North's reaction if President Ford or President Carter had gullibly bargained with terrorists, given them arms, undermined relations with friendly Arab states, and circumvented the advice of the Joint Chiefs of Staff, Consider:

Denials notwithstanding, the Iran project quickly became an arms-for-hostages deal. That aim was clearly spelled out in a directive that President Reagan approved but that the admiral destroyed. The admiral said the document was merely intended to satisfy the legal requirement for certifying a covert action, and did not fully reflect the policy. If there were more to the project at the time, surely this careful nabureaucrat would have had the wit to add a few sentences to that effect.

In practice, the directive justified not just a covert operation, but a fundamental shift in foreign policy. This was the president who on taking office in 1981 told American hostages just freed by Iran: "Let terrorists be aware that when the rules of international behavior are violated, our policy will be

Like almost every witness in the Iran- one of swift and effective retribution." Linking arms to hostages set a premium on Tehran's releasing old hostages and ab-

ducting new ones. The ayatollahs had no trouble grasping the concept of supply-side hostage taking. No wonder Admiral Poindexter wanted everybody to believe the "project" had a loftier purpose — to reopen relations with a strategically vital Iran. The aim was laudable; the means laughable.
The plan called for the United States to

prove its worthiness as a strategic ally by providing arms. Then, of course, further proof was demanded - and even more arms might have been dispatched to Iran if Admiral Poindexter's caper had not been revealed. No serious policy maker undertakes a covert operation without addressing the consequences of revelation. In this case the costs were enormous: Washington sabotaged its own efforts to establish a worldvide arms embargo against Tehran, Valuable weapons were provided to Iran at critical times in the war against fraq, a war that no sensible American leader could wish Iran to win. American credibility among Gulf states was eroded.

Had the project remained secret for a while longer, what would have happened to that strategic relationship? It would have evolved along lines charted by Colonel North and private arms dealers. The U.S. part of this bargain supposedly included the promise of communications hardware, a pledge to go to war with Russia in the event of a Soviet attack on Iran, and a commitment

to help (ree jailed terrorists in Kuwait. These were not serious offers, as Colonel North acknowledged. He said he would have promised anything to free American hos-tages, thus confirming the real aim of the game. Since the Iranians quickly would have discovered that the U.S. promises were empty, how on earth would that have improved

relations with supposed "pragmatists"?

Ah, the pragmatists, as the admiral called them. Until recently, administration officials referred to them as "moderates." But "pragmatist" somehow seems more apt. If only some of that pragmatism had rubbed off on the admiral and the colonel at the outset, the United States and its allies might have been spared their present grief.

- THE NEW YORK TIMES.

For a Passable Trade Bill

bill, the real decisions on American trade policy lie with the conference that is about to begin. Both the Senate's version and the one that the House of Representatives passed earlier carry an outrageous amount of bad and mischievous baggage. But, fortunately, the worst mistakes in each are omitted in the other. That will give the conference great latitude, if it chooses, to write quite satisfactory legislation.

The most objectionable parts of both bills are the anti-Japanese provisions those that, in one veiled manner or another, of them would ever become law. But there is blame the Japanese for the competitive failures of American industry. They threaten needs badly - the authority to engage in Japan with punishment if it does not bring the round of world trade negotiations that its exports down or if it does not buy more American goods. Congress is expressing a wave of anti-Japanese emotion that does it no credit. Even the sponsors of these provisions acknowledge that Japanese trading practices have little to do with the U.S. trade deficit and the loss of American export markets. Japan's protection of its own market is deplorable, but no one disputes the fact that Japanese protectionism accounts for only a minute fraction of the U.S. trade deficit. Nearly all of it arises from the Reagan administration's mismanagement of the American domestic economy and its enormous budget deficits. But it is easier and more satisfying to go after Japan than the budget deficits.

And yet even these parts of the emerging legislation are not beyond redemption. The Senate's counterpart is less offensive than

the original House language, the famous Gephardt amendment. The conference committee has an opportunity to refine it further Improving the bill, rather than try-

ing to pump it up as a partisan issue, ought to be the administration's strategy. President Reagan has been doing a lot of talking about a veto, but killing this legislation is not an attractive prospect for him. If it were the conference committee's job would be infinitely easier. It could simply stuff in all the lobby-pleasers and special interest handouts, with assurance that none one thing in both bills that the president among other things, the serious work of reducing Japan's trade restrictions is going to be done. If President Reagan vetoes this bill. the United States will be powerless to participate in the trade talks, and they will collapse. Mr. Reagan would become the first American president since World War Il to fail to carry forward the job of expanding trade and trading rights that have been crucial in the rise of the world's prosperity over the past generation.

If President Reagan cannot get adequate legislation this year, he is unlikely to get it next year in the midst of an election campaign. The conference committee has a responsibility to produce a passable bill. Mr. Reagan cannot afford to give it the

easy out of an assured veto. -THE WASHINGTON POST.

Other Comment

Blinded by North's Medals

As Oilie-mania loses its grip on the American consciousness, its influence will similarly diminish, proving to have been as transient as the Nehru jacket. By the time the Reagan administration officially begins pleading its case for the contras this fall, we fervently hope that those debating the issue will no longer be blinded by the sight of a chestful of medals on an errant National Security Council staffer's chest. The contras are no more deserving of aid than they were before Lieutenant Colonel North took hold of the country's fancy.

- The St. Louis Post-Dispatch.

It Takes More Than a Vote

Iran's refusal to accept the UN Security Council's unanimous resolution for a ceasefire in the Gulf war came as no surprise but still was a disappointment. For the first time, all five permanent members of the council joined in sponsoring a resolution.

This underscores the grave concern that recent developments, including the launching of U.S. Navy escorts for Kuwaiti tankers, will expand the war into an international crisis. Regrettably, the resolution lacks moral persuasiveness because the Security

Council permanent members that sponsored it have all been supplying arms to one or the other of the warring nations. These countries must examine their own behavior, which has encouraged the two principals in the conflict to continue fighting. Otherwise, the historic resolution will end up as yet one more empty effort.

— The Japan Times (Tokyo).

Restraint on Toshiba

Congressional anger over the illegal sale of high-technology machinery for production of submarine propellers to the Soviet Union by Japan's Toshiba Machine Co. is fully justified. It makes no sense, however, to damage the United States in retaliation. Many U.S. companies depend on Toshiba components, [and] 4,000 Americans are employed by the parent company, Toshiba Corp., in the United States.

So long as Japan follows through with the stern and effective measures (that it has promised], it is unreasonable for the United States to inflict economic pain on American workers and firms dependent on divisions of the giant Toshiba Corp. not involved in the illicit deal with the Soviets.

OPINION

Thoughts From 'Post-Totalitarian' Poland

W ASHINGTON — Flying anywhere can be umpleasant these days, but taking Polish Airlines from Warsaw to Gdansk is downright horrific. Searching scrutiny upon boarding, a hassle over the fact that one has film in his camera (as I did), a requirement that passengers ask permission of the flight attendant before they can get up to go to the bathroom (an anti-hijacking precantion) - these were just a few of the amenities on our recent flight. In this case, though, it was worth it because we were going to see Lech Walesa, leader of the now-banned Solidarity movement.

We met Mr. Walesa, who had just finished his 6 A.M. to 2 P.M. shift as an electrician at the Gdansk shipyard, over lunch at the residence of a friend of his, Father Henryk Jankowski. Is Solidarity a union or a national movement, we asked. "We are the reform," Mr. Walesa pronounced. "We don't want power, just changes in structure. But," he cautioned, "we are dangerous when we are independent and creative at the same time." Asked whether U.S. trade sanctions against Poland had helped Solidarity, he shifted to Iinesse: "It is a complicated problem. The U.S. has good diplomats, so I leave that to them." After lunch, our small group moved to a parket

where several French trade unionists waited to hear this sage of Solidarity. Someone wondered whether Pope John Paul II's recent visit had helped the situation in Poland. Mr. Walesa said: "It's too early to tell. It was a big event, but its effects will depend on society—if it will be able to take advantage of it. These are not times when even an outstanding man can achieve results. We need pluralism, social and economic pluralism.

"This is an absurd society, where 90 percent of the people are Catholic, and atheists hold he continued. "We suggest, as reformers, logical solutions. We want to be unionists,

we don't want to govern."

Of Mikhail Gorbachev, Mr. Walesa said: "He

is a good person, faced with bureaucracy. He opens the tap, but water cannot flow as it should due to this bureaucracy."

He struck a more ominous note on the issue of whether the system can be reformed. "If not, there will be a big revolution," he said. "We don't want revolution but evolution, the learning of democracy and economics. But if that is not possible, it will be dangerous. It is not possible

to stop the course of events."

His closing thought pulled back a bit: "This government goes in the right direction, but we may wait 300 years for results."

Mr. Walesa may be the best-known Polish dissident, but he is by no means the only one. Zbigniew Bujak, a handsome 34-year-old trained as an electric power technician, became Solidarity's underground leader after the suppression of the movement and the imposition of martial law-in December 1981. Captured in May 1986, he

was released in the September annesty.

At dinner in a Warsaw suburb, Mr. Bujak lamented the difficulties Solidarity faces: "It is hard to interest the youth; it is hard to wait." The pope's visit helped because he called for patience, Mr. Bujak said. The underground press is going strong. "There are at least 36 books a year

strong: "There are at least 36 books a pour published and 400 periodicals."

I asked what the party lineup in a free Poland.

Service Union?" he said might be. "Without a Soviet Union?" he said gleefully. "Real Communists could meet in a bathroom." The largest party, he added, would be Christian Democrats, then Social Democrats. Which American would free Poles vote for? Ronald Reagan. The next most popular Americans? Jeane Kirkpatrick and Edward Kennedy.

Mr. Brijak's colleague, Adam Michnik, a wide by published intellectual of 41, was born into a 1983. He contributed this to The Washington Post.

working-class family and was once a protege of Sartre. Between 1965 and 1980 Mr. Michnik was detained by the police at least 100 times, and he spent 14 months in jail in 1985 and 1986.

He eyed me solemnly as our interview began and said, "Poland has achieved the highest stage of communism." Pause, "It is a total mess." After a burst of laughter, he turned serious. The rulers know they can't rule and the ruled know they can't overthrow the rulers. There must be reform, but there is none. There are only changes. Poland is pregnant with reform, but the government can neither give birth to it nor abort it."

I asked whether Prime Minister Wojciech Jaruzelski could be considered a Polish de Gaulle, a uzerski could be considered a Poush de Gaille, a man beset by problems and coping as best he can. "He is no de Gaulle," Mr. Michaik replied; "he is a Pinochet, though Pinochet is tougher."

Could there be a loosening of the Warsaw. Pact, with Poland playing a role similar to that of Greece in NATO? "I don't know," he replied, "hat we should set as if it is possible. We must

"but we should act as if it is possible. We must take every chance for change. Perhaps Gorbachev means such a change."

In 1980 and 1981, "mistakes were made" by Solidarity, Mr. Michnik said, "but martial law was not due to going too fast. It was imposed because Solidarity violated the rules of a totali-

tarian system. The best way to overcome such a system is without blood and revolution. We have lost, but only for now." Is Poland totalitarian or authoritarian? "The state is totalitarian, but the people are post-totalitarian. I live as a free being in a free country - even though I live in jail from time to time! But I am more free in jail than Jaruzeiski is out of

prison." Tom Paine would have understood. The writer has served as an ambassador and as

GO EASY - WE DON'T WANT TO TURN THIS ONE INTO A COCKY UNDERDOG, TOO.

lutionary recruits against middle aged professional soldiers accustomed to barracks and routine. The comparison that comes to mind is the U.S. Navy's long and ponderous preparation for the Gulf escort operation. It has been approximately as elaborate and apprehensive as that for the Murmansk convoys in World War

IL Iran's Revolutionary Guards, in outhoard motorboats, seem to be cast as Nazi U-boat wolf packs. Iran at this moment, is more revolution than nation. Washington still seems not to grasp that you do not or bargain with them, or conduct use-

ful diplomatic relations with them. One Western government after another has tried to cope with Iran by using force or threats, or by being has unsuccessfully bargained for hosclever, being diplomatic, being reasonable. Iran has triumphed every time, not simply because Iran's leaders are

responsibility. Many America

scrupulous and unconventional, but because they and their followers be-lieve in their revolution — not only as a national salvation but as a means to their personal redemption.

The West European governments have tried compromise and concession to free hostages or limit terrorism in Europe. Even Britain, the toughest of the European nations, made a deal earlier this month to get threatened British diplomats out of Tehran. Yet, opposition was wounded in a bombing in London. Police fear that more bombings will follow.

France's conservative go

A Scorched-Earth Policy on Contra Aid

ATRICK J. Buchanan, the former White House communications director, has urged President Reagan to "demand, not request" \$500 million for the contras. He should also "block any criminal prosecution of Poindexter or North," if necessary by pardoning the two in advance.

The puzzle here is that Mr. Buchanan and other self-styled interpretens of the mind and inclinations of Ronald Reagan seem to understand him, or at

least his political strengths, so poorly.

Mr. Reagan, a consummate chief of state, a skilled unifier, has been at best a mediocre chief of government. But Mr. Buchanan would have him sacrifice

the role he is good at for the pursuit of a momentary advantage in the role he is mediocre at. With luck, Mr. Reagan will reject this advice.

By taking it he would soon divert attention from the graceful character and

presence that are his strengths, to his policies, for which there is little consensus. If the president has suffered any serious reversal in the Iran-contra affair, Mr. Buchanan's scorched-earth strategy is precisely the wrong way to make a comeback. After all, what Americans like most about Ronald Reagan is that he is not ultrapartisan and not mean-minded. - Edwin M. Yoder Jr. in The Washington Post.

Minister Jacques Chirac has sought "normalization," repaid a third of a disputed billion-dollar loan arranged in connection with a nuclear poproject when the shah of Iran still was in power, and forced an Iranian occosition group to leave France. The outcome nonetheless is broken relations and a tense confrontation, with em-

bassies besieged in Tehran and Paris. France demands that an Iranian in Paris. But it is hard to see how France's diolomats in Iran are going to get home if Paris does not yield.

Until Tehran revealed America's arms shipments to Iran last fall, the United States practiced the "neat idea" of combining condemnations of Iranian terrorism with secret negotiations and arms sales at extortionate prices. The Iranians took the arms, kept most of their American Reagan has now chosen to do. hostages, laughed at the White House notion that the United States was dealing with "moderates" and went nity in North America and Western right on with the Gulf war, terrorism, hostage-taking and revolutionary ag-itation in the Moslem world.

What do you do about Iran? You have as little to do with it as you

not serve the revolution.

No one —least of all a John Poindexter or an Oliver North -- is going to outsmart it. No one is going to bribe it to change course. No one is going to force it to do so, not even the U.S. Navy, short of full-scale war.

"moderate elements"; the essential quality of any revolution is its rupture with moderation. It is a waste of time (now, at least) to think that you can identify those who will run the country when Ayatoliah Ruhollah Khomeini is dead. It was a waste of time for the British governments of the 1790s to plot with exiles from the court of Louis XVI, or look for "moderates" Embassy employee be interrogated in among the commissurs of the revolu-

The prodent policy is to try to isolate Iran until the Gulf war has run its course. It probably is also prudent to support Iraq — with distaste, recalling that Iraq is the country responsible for the war --- in order to keep Iran from a victory that would fuel its revolution. It is not prudent for the United States to take a direct role in the war - as, nonetheless, President Ronald

A prudent policy would, so far as this is possible, protect domestic secu-Europe by limiting and tightly con-trolling the movement in the Western countries of Iranians and others identified with Islamic fundamentalism. people. Time will eventually have an effect. But as Metternich said, in Napoleon's time, "One cannot make peace with a revolutionary nation." To that it needs to be added that you do

well not to make war with it either. International Herald Tribune C Los Angeles Times Syndicate.

An Economic Everest for America's Next President

By Robert D. Hormats

N EW YORK — With the camder way, it is worthwhile to consider trade restrictions, troop withdrawals and cuts in foreign aid will intensify. how the next president might pro-The new president's capacity to lead the free world would be seriously undermined in such an atmosphere. Conversely, if America's allies feel a world dramatically altered by powerful market forces and shifts in the economic strengths of nations. President Reagan's initial challenges were to subdue inflation and restore growth. The next president

them to adopt policies counter to their interests and using its deficit as a pretext for backing off world comsessing the world's strongest economy, is frustrated by trade deficits, external debt and the perception that its allies are not shouldering global mitments, then they will resist American policy initiatives.

The key challenge facing the next these as reasons for the United States

president will be to press other nations to assume greater responsibility for the world economy without creating the impression that America is blaming them for its problems. Europe and Japan will have to

break out of their complacent belief that America will forever order its policies to ensure a healthy world economy while its trading partners pursued policies aimed solely at domestic goals. These nations depend heavily on a world economy that is influenced as much by their policies as by those of the United States. Their policies must begin to reflect the need for equal responsibility.

Change must also take place in Washington. Federal and private borrowing relies significantly on foreign capital. President Reagan learned at the Venice summit meeting that, as a heavy debtor, the United States cannot merely insist that others comply with its wishes. Greater executive leadership will be required to reduce United States reduce its trade deficit the budget deficit for domestic reasons and to assume a fair share of military, and to strengthen the next presi-energy security and foreign aid burdent's hand in encouraging Europe

dens, then domestic pressures for and Japan to help stimulate growth.

Reconfiguration of international economic strength means that foreign support for American objectives car no longer be assumed. Erratic domes-tic policies, lecturing others when Conversely, if America's allies feel
the United States is blaming them for
problems of its own making, pushing
washington cannot control its budget
and blaming others for home-made
problems will weaken U.S. influence.

America's allies also must be persuaded that their new wealth places responsibilities on them to increase their foreign assistance. Europe and Japan have the capacity to provide more aid while the United States tries to cut its budget deficit. By increasing their foreign aid and providing incen-tives to their private sectors to extend loans to worthy development projects, these allies would strengthen growth and stability in nations important to the West while reducing pressures from Washington for a "quick fix"

stimulus in their economies. The next president will have to devote personal attention to milimational trade negotiations and insist that his counterparts abroad do likewise to achieve a reduction of trade

barriers and an update of trade rules. Without progress in these areas, protectionist pressures in almost every country will intensify, confronting the president with the prospect of trade wars and global recession.

Revitalizing the West's flagging commitment to reduce its energy dependence must also be a high priority. The West will become increasing ly vulnerable to interruptions of oil supplies unless strategic oil reserves greater domestic capacity are impriss was taken over by Great Britain, given the care in treatment for at posed, oil production in nations that which has since neglected it entirely. Least five years before petitioning

issues effectively, he can persuade Americans that sustained leadership by the United States is still necessary, despite the fact that other countries have assumed a greater role in the world economy. And he will have regulation does not work: Affines, presided over a historic transition. like other forms of transportation, require economic regulation. To be lieve otherwise is to ignore reality.

control more than 84 percent of pas-senger traffic in the United States, up from 73 percent before deregulation. One hundred forty-eight small cities now have assurance of some airline service, thanks to federal subsidies provided by the 1978 deregulation act. That will end

soon have no air service.

Experts such as Mr. Dempsey, the late Civil Aeronautics Board chairman Secor Browne and Frederick

stead-to the deregulators, led by Alfred Kahn, Mr. Carter's Civil Aeronautics Board chairman. They promised that the "free market" under deregulation would stimulate

competition and benefit consumers. In 1983, David Richards of the CAB staff warned Congress that the short-term benefits of fare wars in the early years of deregulation were disguising longer-term problems. But few people paid attention. Without the government looking

over their shoulders, airlines have been free to abandon unprofitable routes, without regard to the impact on the local populace or industries; to manipulate fares to attract business, to use unfair pricing to force competitors to the wall. It is no mystery: Deseguistion had the same effect on the callroads and the trucking industry.

Even without regulation, the

Transportation Department has authority to provide some consumer protection. But Secretary Elizabeth Dole seems to have little inclination to do so. In addition to bait and switch advertising, airlines engage in deliberate overbooking and in what
Mr. Dempsey calls "unrealistic
scheduling" — they send out more
flights than airports can handle.

The hazard from overcrowded air
ways is obvious. The carriers usually.

OPINION

4.

First They Filled the Stores, Then They Filled the Streets

By A.M. Rosenthal SEOUL — Through the iron grille over the country. Crowded stores and mountains of consumer goods may seem mountains of consumer goods may seem can be seen, neat in bine, standing silently in a great hall. A gentle recorded United States that have had them for so voice talks to them of their duties long But they are as politically signifiand aspirations and they bow seven cant as a library of treatises in a country times. A young woman walks a dozen that started with nothing but economic

lifts; the temple is opened. enter, violins play and trumpets sound. As each visitor passes, the acolytes bow

ON MY MIND

has walked through the entrance is the essence of life: a customer!

In a half-hour or so, the department store is jammed and it stays that way until closing time. The nine floors are stuffed with goods, and the him and beep of electronic equipment being test-ed and sold is background music all day long - and not just in the computerware sections. There are electronic sewing machines and electronic parlor fountains; the goldfish are not electronic.

There is an unending supply of every-thing: clothes, furnime, luggage, video equipment and vast amounts of food and drink. I thought setting out rows of empty glasses before invitingly open wine bot-tles was a nice touch. And however crowded it gets, there is a salesperson not only ready to serve but leaping out to inquire about the customer's desires.

This store and a score like it, the tens

of thousands of shops in arcades and the shopping stalls that blossom at night, have made a consumer heaven out of a city that 25 years ago had little to dis-play but rubble and dark streets.

There is a connection between the new commercial bounce of South Korea, the laden shelves, the constant buying and selling and using, and what is taking place here politically — the determined demand for political freedoms washing

Democracy in Doubt

T HE OPPOSITION'S instinct to rearm itself with fresh demands does not augur well for a smooth process of

democratic construction in South Korea. While the two Kims - Kim Dae Jung and Kim Young Sam of the Remnification Democratic Party - passionately believe that "democrais" rather than the military should rule modern Korea, they nonetheless regard power and legitimacy as essentially indivisible, and so only vaguely comprehend the practices of power-sharing, compromise and role of law that are at the heart of the modern democracies. The Korean War generation fails now to find democratic solutions; a new generation is waiting in the er themselves middle class, a social revolution of mutual use of the airwings with new slogans, a new national lution that filled not just department port built illegally on Spanish territory. ism and more gasoline bombs.

steps and pushes a button. The grille empiness and a people's energy.

A few people are waiting and as they need, a desire to have, to create, to build, which also means a desire to move upward, toward a real economic sharing

This was not trickle down or trickle up but a surge forward that carried again, for they know each person who income of about \$60 three decades ago to about \$2,300 now.

A country and a people do not need department stores and inexpensive clothes and pleatiful food to lust for political liberty. The idea that a nation is "not ready" economically for freedom is a condescension and an arrogance.

So in South Korea the zestful economy did not create the desire for political freedom; the people here have been fighting for that for half a century. But if you can eat and wear what used to be reserved for the elite, social and psychological gaps begin to close too. And this created a new, powerful political reality. It is called the middle class.

Suddenly, the young people were not alone. In cities all over South Korea Back to the Rock the crowds demanding free elections and a free press were full of middle aged, middle-class faces. Generals with political acumen noticed. Roh Tae Woo, the government's candidate for presi-

danger exists from the radical left, which builds on the anger nurtured year after having lost it to British force in 1704.

As to the surrounding areas — in A few years ago, the radical movement was weak. But with every jail beating, the military created recruits for the left.

The danger is not that the far left, a minority, will triumph directly but by providing an excuse for the generals, who have not accepted Mr. Roh's politi-

cal shift, to attempt a coup.

If they do, it will lead in a short time not just to street fighting but to civil war government uses the pretext of squabrescind its promises of democracy.

50 Minus 4 Leaves Only **Uncertainty**

By Joe Murray

🕇 UFKIN, Texas — If anybody asks how old I am, I say 46. But that's only half true. The other half of it is that I'm only four years short of 50, which is a whole lot older than 46.

I'm not just getting older, I'm getting dumber. I used to know almost everything. Now, I hardly know anything. Some people, when they say that, are

MEANWHILE

kidding. What they mean is, they've come to realize they don't know nearly as much as they once thought they did. But I really did know everything. I still remember how it felt, to be totally sure of yourself and your judgment. It felt good, That's about all I remember of it. I've forgotten the rest - the everything else.

For what it's worth, my wife disagrees She says I never did know much that I only thought I did. But she's getting older, too. She's forgotten how smart I was But that's just part of the problem They say you're only as old as you feel. Well, I wish I felt as old as I am. I keep waiting to mature. I've been waiting since I was 18. As far as I can determine. I've made no progress whatsoever. It seems that I may skip maturity altogether, go directly from adolescence to sentility, from my first childhood to my second.

In the meanwhile, I'm faking it. Lately,

I'm starting to suspect that some other people have been faking it, too — people who know good and well they have no business in positions of responsibility, seeing as how they never got past being 18. But they need the money. I've considered asking some of them, straight out. But they'd probably just fake an answer. One good thing I've noticed about being older: Women are staying pretty

much longer than they used to. When I was 18, women stopped being pretty when they got past 23 or 24. Nowadays, I see women who are twice that age and older and who still look really good. Why that is, I don't know - the advance of medical science I suppose. But sometimes I wonder if it's just me.

Most everything else is.

My wife probably knows. The older I get, the more she seems to know most everything. But I don't ask her about pretty women. I know better. At least I still know that much. Cox News Service.

Soviet Hedging on Pact In Pacific Raises Doubts

By Michael Richardson International Herold Tribiose

SINGAPORE — Qualifications expressed by the Soviet Union when it signed a treaty to make the South Pacific a nuclear-free zone have raised doubts about the value of Soviet assurances of support for similar arms control arrangements in Asia and Europe, officials in the region said Thursday.
They said Australia, New Zea-

. -

.-3

. . . .

land and several South Pacific islands had strongly urged that Moscow drop the qualifications when the treaty is eventually ratified by the Soviet Union. A senior Australian official in

Camberra said it was difficult to see came into force last December. how Moscow could sustain these qualifications "when it is trying to assure the world it is an earnest advocate of effective arms control arrangements." Australian officials said Mos-

cow's qualifications had raised doubts in Europe and Asia, among governments that favored creation of nuclear-weapon-free zones, about the value of Soviet pledges of support for such zones.

The officials noted that agreements for such zones were being drafted or discussed for the Balkans, Scandinavia and the Baltic Sea, the Middle East, South Asia and Southeast Asia.
One official noted as well that

the Soviet leader, Mikhail S. Gorbachev, had just offered to eliminate Soviet medium- and shorterrange nuclear missiles from Asia. Soviet qualifications about the South Pacific nuclear-free zone include a warning that Moscow interprets the treaty to mean that signatories will not allow visits by

nuclear-armed ships and aircraft. Such visits are specifically permitted under the treaty. They are regarded by the United States as a key part of the ANZUS alliance with Australia and New Zealand.

Australian and New Zealand officials said it appeared that Moscow was trying to further weaken the ANZUS pact, which has been under stress since 1985 because of New Zealand's anti-nuclear policy. Rear Admiral Edward B. Baker

Quake Hits Northern Iran The Associated Press

Jr., regional director for East Asia and the Pacific in the U.S. Defense Department's International Securiry Affairs section said at a congres-sional hearing in Washington last month that the Soviet Union had signed the South Pacific treaty to identify itself as leader of "the antinuclear bandwagon and, more importantly, to curtail Western military operations in the area." Of the five nations that acknowl-

edge possession of nuclear weapons — the United States, the Soviet Union, China, France and Britain - only the Soviet Union and China have signed protocols agreeing to the South Pacific treaty since it The treaty prohibits testing, stor-

ing or making nuclear weapons, and dumping nuclear waste. But it permits passage, through international sea-lanes and airspace in the zone, of ships and planes carrying

The treaty leaves it to signatories to decide whether to allow into their territory ships and aircraft capable of carrying nuclear weapons.
The United States and Britain, declining to approve the treaty, argued that it would weaken the West's strategy of muclear deterrence. France, which also refused to sign, tests nuclear weapons in

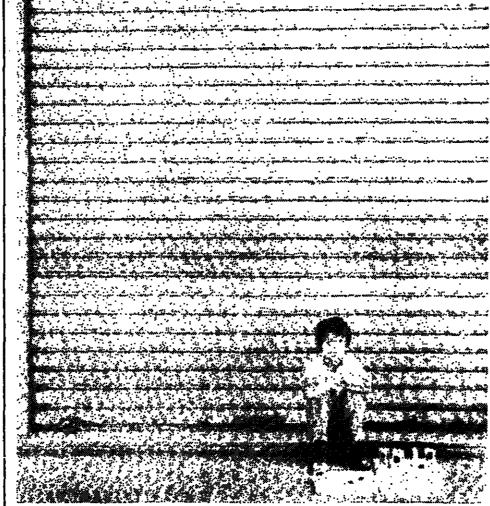

the South Pacific. The Soviet Union's prompt adherence in December was initially welcomed by countries in the region. But as Moscow's qualifications were analyzed, praise turned to cynicism, officials said.

A New Zealand official said Thursday: "It looks like the Soviets were just trying to embarrass the Americans."

visits by nuclear-armed ships and planes to countries that had ratified the treaty as "inconsistent with the nuclear-free status of the zone." Eleven South Pacific countries

have signed the treaty and nine of them, including Australia and Fiji, have ratified it. Australia and Fiji allow U.S. nuclear-armed ships to make port calls. The Soviet statement also

use, or threaten to use, nuclear Mr. Genscher, at a meeting in Bonn weapons against signatories of the with Mr. Velayati, interceded on treaty would be withdrawn if a behalf of its ally because of the country committed "an act of ag- good relations between West Gergression" supported by a state pos- many and Iran. sessing nuclear weapons or allowed territory or airspace for transport- minister and accused West Germaing nuclear weapons for purposes ny of supporting the Iranian leader,

MAKING THE MOST OF A STRIKE - A Lebanese boy tried to sell cigarettes Thursday in front of a closed shop in West Beirut during a general strike. Officials said that four million people throughout Lebanon observed the strike, which was called to protest a high rate of inflation and a sharp decline in the value of the Lebanese pound.

Soviet Support of UN's Gulf Efforts May Not Extend to Arms Embargo

By Philip Taubman New York Times Service

MOSCOW - Soviet support for tions with Iran. a United Nations effort to end the Iran-Iraq war does not necessarily extend to a possible international embargo on arms shipments to the combatants, according to a Soviet official and Middle East diplomats.

The Soviet official, who is involved in Middle East policy but asked not to be identified, said Wednesday that Moscow's interest in maintaining good relations with Iran might preclude endorsing an arms ban aimed at bringing Iran into compliance with a Security Council resolution calling for a cease-fire. The resolution was unanimously approved Monday. American officials, encouraged

by the Soviet vote in the Security Council and by recent discussions in Moscow by Vernon A. Walters, the chief U.S. delegate to the United Nations, have said they are optimistic that Moscow would support an embargo if one became neces-It is not known whether Mr.

Walters was given specific assurances that support for an embargo would be forthcoming or whether he inferred from the talks that Moscow might offer a positive re-Middle East diplomats said they

would be surprised if Moscow supported an arms embargo because Iran would view such a step as a symbolic political slap. Moscow is the main supplier of

arms to Iraq and is not a direct

Tables include the nationwide prices up to the closing on Wall Street and do not reflect into trades elsewhere **NYSE Mixed as Blue Chips Rise**

United Press Into NEW YORK — Prices on the New York Stock Market ended mixed in moderate trading Thursday as blue-chip issues eked out slight

163,670,000 205,478,390 11,350,000 12,560,000 15,4103,765 61,628,45 60,634,92 3,021,92 5,611,33 57,824,90 54,275,96

gains despite broad-based profit-taking.

The Dow Jones industrial average rose 1.76
points to 2,471.94, but broad-market indexes
slipped, and losing issues outpaced winners by 9
to 6. Volume fell to 163.67 million shares from

174.65 million Wednesday.

The market posted narrow losses in morning trading and steepened them in the early after-noon. Then blue chips rallied, finishing in the plus column. The broad market remained lower. Traders said slight dollar weakness and easing bond futures prices encouraged equity investors to take profits, a trend that has prevailed all week.

Some analysts said the market was consolidating its recent advance.

But Michael Metz, a portfolio strategist at

Oppenheimer & Co., said the market is approaching a dangerous point. Narrowing premiums on stock index futures mean program selling threaten a "telescoped and compressed" decline that would be more damaging to the market than gradual profit-taking, he said.

When stock index futures become less expensive, traders can profit by buying the futures while selling the underlying stocks.

Mr. Metz said recent declines in the Japanese

stock market could also hurt U.S. equities. The Japanese declines have ominous deflationary implications for Japan and the rest of the world," Mr. Metz said. "If their market

SALZBURG

Schoenberg as Festival Fare

Arnold Schoenberg's operatic fragment "Moses und Aron" will make its first appearance in the program of the Salzburg Festival, which opens Sunday and runs through Aug. 31. Schoenberg's work will be seen in the Felsenreitschule, beginning Aug. 13, in a production staged and designed by Jean-Pierre Ponnelle and conducted by James Levine, with Theo Adam and William Johns in the title parts. Other operatic productions new this year are Mozart's "Abduction From the Seragio," conducted by Horst Stein and staged by Johannes Schaaf in the Small Festspielhaus, and the Herbert von Karajan-Michael Hampe production of "Don Giovanni" done earlier this year for the Salzburg Easter Festival, in the Large Fest-spielhaus. Productions of Mozart's "Marriage of Figaro," Strauss' "Capriccio" and Monteverdi's "Il Ritorno d'Ulisse" are returning this year. Two other stage novelties are the world premiere of "Fürst von Salzburg — Wolf Dietrich." a "scenic chronicle" about one of Salzburg's prince-archbishops with music by Gerhard Wimberger, being staged in the Felsenreitschule, and Franz Schmidt's orasonic version staged by George Tabori in the University Church. Ballet, a rarity for the festival, returns this year in the form of two programs by the Harlem Dance Theater. Aside from the usual appearances of the Vienna and Berlin Philharmonic Orchestras and the Austrian Radio Symphony, the orchestral lineup also features the Dresden Staatskapelle, the Chamber Orchestra of Europe, the Israel Philharmonic, and the Philadelphia Orchestra's first appearances at the festival. Concurrent with the festival is an exhibition devoted to "World Premieres at the Salzburg Festival" at the Max Reinhardt Research Center in Schloss Arenberg.

BAYREUTH

Herzog Stages 'Lohengrin'

This year's Richard Wagner Festival opens Saturday with a new production of "Lohengrin," being staged by the film director Werner Herzog, with sets and costumes by Henning von Gierke and conducted by Peter Schneider. The cast includes Paul Frey in the title part, with Nadine Secunde as Elsa, Gabriele Schnaut as Ortrud, Ekkehard Wlaschiha as Telramund, Manfred Schenk as the King and James Johnson the Herald. Revivals include Daniel Barenboim conducting "Parsifal" (staged by Götz Friedrich) and "Tristan" (in Jean-Pierre Ponnelle's production), and Wolfgang Wagner's productions of "Tannhäuser" and "Die Meistersinger," conducted respectively by Giuseppe Sinopoli and Michael Schonwandt.

AVIGNON

The Musee Louis Vouland, a private museum that houses decorative arts and furniture from the 18th century as well as works by Provençal artists, is showing works by the painter and engraver Jean Patricot, best known for his portraits of the Tout Paris during the Belle Epoque. Born in Lyon in 1865, Patricot married an American woman, and his works were seen in New York in the early part of this century. The

Patricot married an American woman, and his works were seen in New York in the early part of this century. The exhibition of about 50 works from a private collection includes portraits of Patricot's wife and children, as well as engravings of such people as Marshal Foch and Princess Ouroussof. Musée Louis Vouland, 17 Rue Victor-Hugo, until Aug. 31. The museum is closed Saturdays, Sundays and Mondays.

An Indian Summe

Painting Paris Society

■ Contemporary and traditional art, music and crafts from India are being shown in seven Swiss cities this summer and fall. In Zurich, the Rietberg Museum is showing the art of the Mogul court painters until Sept. 27. In Lausanne, the Musée de l'Elysée is showing the collection of photographs of the Mahareja of Jaipur, one of India's earliest photographers. Alongside are Henri Cartier-Bresson's pictures of India and the work of 15 contemporary Indian photographers; until Aug. 16. Geneva's Museum of Ethnology is showing "The Thousands Faces of India," notably its applied arts, until December. The Fribourg Musee d'Art et d'Histoire will be showing Le Corbusier's vision of Chandigahr, alongside tra-ditional Indian architecture. Meanwhile Indian music and theater will be performed in Geneva parks, and Sotheby's will auction ancient jewelry from Sept. 14 to 27. Other events take place in Bern, Basel and Sierre. Further information can be obtained from Swiss tourist offices.

MONTE CARLO

'Regent' Pearl on Show

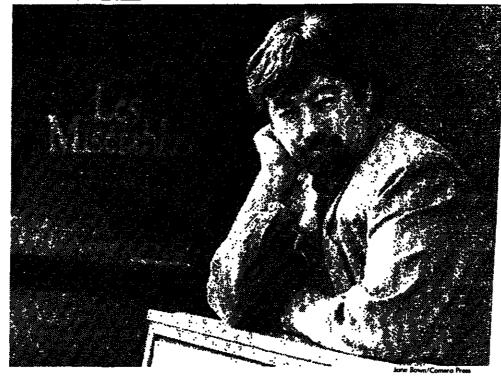

■ The Regent pearl, owned by both Napoicons and once part of the French crown jewels, is on display at the Biennale des Antiquaires in Monte Carlo this weekend. It is the first time the gem has been seen in public for a century, according to its current owner, Fred Leighton, the leading American dealer in estate jewelry. Leighton bought the pearl, in association with the Geneva firm of Th. Horovitz, from the Youssoupoff family, who had acquired it in the great auction of French court jewels conducted under the Third Republic in 1887. The picture shows the pearl as it was set in a magnificent stomacher jewel made for the Empress Eugénie, wife of Napoleon III. Earlier, Napoleon I had had it set in a tiara

for his second empress, Marie-Louise. Today's price for the pearl alone has been set at \$1.5 million. Shakespeare's Men:

The Art of Crisis

RSC directors, past and present, counter-clockwise from left: Peter Hall, Trevor Nunn and Terry Hands.

by Robert Cushman

Shakespeare Company has been in financial trouble ever since it was founded in 1960 by Peter Hall as a means of expanding the annual Shakespeare Festival at Stratford-upon-Avon. Hall opened a London base at the Aldwych Theatre,

Hall opened a London base at the Aldwych Theatre, hoping to offer actors a sufficient variety of non-Shakespearean work to maintain their interest, and thus build up a semi-permanent company. Strafford at the time was economically self-supporting, but there was no way the London arm could be, playing in repertory without a guaranteed tourist audience and without a subsidy. Hall gambled on creating something so good that the government, through the Arte succeeded, though it seemed at one point that he would go under first.

That was long ago, in 1962, but essentially the RSC's situation has remained the same. They have never had as much money as they would like — certainly never enough to feel secure. Threats of imminent closure unless more funding was forthcoming have become almost an annual event. Generally the money somehow has been found. This year it may not be. The company is one million pounds in the red and rumors have been rife that one end of the operation — Stratford or London — may have to be closed.

Twenty-seven years on, it is a much bigger operation, massive in fact. Hall gave way as director to Trevor Nunn, and Nunn to Terry Hands. The RSC, after waiting for many years, has its own purpose-built theater in the Barbican. It also has a flotilla of smaller theaters. At Stratford there is the Other Place, a converted shed (with an inexplicably magical atmosphere) mainly used for new plays and, as of last year, there is the Swan, purpose-built — and beautifully so — for the performance of Shakespeare's neglected contemporaries. The logic of the simution is that each of these spaces must have a London equivalent. Productions from the Other Place go to the Pit, a subterranean space in the Barbican. Swan shows go to the Mermaid, a celebrated City of London theater acquired for the RSC on a five-year basis by a friendly American producer, Frank Gero.

There are also tours. Two plays a year are taken around the small towns and villages of Britain. At the end of each Stratford season all the plays — 15 this year in the three theaters — are taken off for a season at Newcastle. There are commercial transfers. Three RSC shows — "Les Misérables," "Les Liaisons Dangereuses," and "Kiss Me Kate" — are in the West End at the moment, and the first two are playing on Broadway as well. Peter Brook, the RSC's elder statesman, has remarked that all this expansion is self-perpetuating: You open a new theater, so you need more money, so you open another theater. Artistically he finds this hyperactivity dangerous and, from his own point of view as a dedicated experimentalist mounting one or two plays a year at his theater in Paris, he may well be right. But the RSC is not that kind of organization and never could be.

Unfashionably. I regard the constant ferment as exciting in itself and as a guarantee that some work of quality will always emerge. The volume of failure seems to remain constant, however much or little work you do, so best leave as wide a margin as possible for success. And it doesn't make too much sense to talk of dilution of the RSC's identity. As long as the RSC maintains its Stratford-London axis, it will always be two companies — and if two, then why not three, four or more?

It happens that the financial crisis has coincided with artistic ones. The Barbican Theatre is housed in a concrete cultural complex in the middle of an upmarket housing and office estate. Terry Hands loyally claims that he loves it, but nearly everyone else, audience and performers, finds it forbidding. And that's just the outside. The theater itself, new and expensively equipped, is huge. Its stage dwarfs, physically and spiritually, almost anything that can be put on it. After you've used up the year's supply of Shakespeare, where do you go?

In 1986 Stratford had an unusually brief season. (It was currailed to make room for a revival of "Nicholas Nickleby" earmarked for a money-making U.S. tour; in fact it was a financial flop.) There were thus only

four Shakespeare plays to bring to the Barbican in 1986, and the season was filled up with what could loosely be called modern classics. They were all, on paper, interesting choices. Some vere badly done, but even the good ones looked or aned — and there wasn't an audience for them.

Ten years ago, at the Aldwych, there would have

Ten years ago, at the Aldwych, there would have been an audience. That is the really frightening thing. The public for the classically-based theater is shrinking. It will go to plays it has heard of, or plays with stars (Jeremy Irons was a Stratford crowd-puller last year) or — the RSC's lifeline — to plays it is studying in school. Mercifully the plethora of examining boards in Britain means that any popular Shakespeare play will be a required school text for somebody somewhere.

This means, however, that the less popular plays are squeezed out of the main house repertoire. "A Midsummer Night's Dream' comes round again and again and so, this year, do "The Merchant of Venice" and "Twelfth Night." It becomes difficult for the core of resident directors, conscious of one another's previous productions, to see the plays fresh. And, most of the time, they are working with inexperienced actors. This sounds shocking, given the RSC's prestige, but it is another function of economics. Most provincial repertory companies can no longer afford the number of actors needed for Shakespeare, so young actors get no practice and arrive at Stratford unable to speak the lines. Financial cuts - or the failure of the subsidy to keep pace with inflation - are destroying the structure of the British theater. It has been going on for years. Now even the critics have noticed.

Hands's production of "Julius Caesar" was intended to present the play as a study of personal jealousies and friendships, rather than as the standard political drama — which is fine, and could be refreshing, except that the leading roles were undercast and many of the

small ones colorless "Caesar" always seems like easy meat, but its recent track record in the theater is dispiriting. It probably needs three star performances to make it work.

And yet, in the less demanding ambiences and acoustics of its smaller theaters, the company has done very well, showing that the problem in the main house is not so trutch lack of talent as lack of weight. At the Other Place "Fashion." a new amd ironically titled play by Doug Lucie, the British theater's most acerbic chronicler of the 1980s, has been as well-received as any new work in this dismal year. "Temptation." by the Czech playwright Vaclav Havel, was a stimulating if ultimately confusing attempt at a comic parable about supping with the devil in a modern police state. The Swan, meanwhile, has continued to delight, by

The Swan, meanwhile, has continued to delight, by demonstrating the untapped energy of Elizabethan drama. Marlowe's "The Jew of Malta," last done by the company 23 years ago, reaffirmed its identity as a hugely stageworthy black farce with Alun Armstrong as a villain to captivate the whole house. A more esoteric choice was James Shirley's "Hyde Park," from the time of Charles I. This period, scorned by literary critics, was actually rich in comedy of manners. A young cast, led by Fiona Shaw, an angular comedienne of stellar quality, fought the perennial sex war with relish. Only the director's decision to update the action of Virginia Woolf's Bloomsbury was questionable. It worked, but it would have been nice to see Caroline society on stage. It's not as if we often get the chance.

Most notably the Swan made its first venture into Shakespeare with the blood-soaked "Titus Andronicus," the most neglected play in the canon. The director was Deborah Warner, new to Stratford after running her own shoestring Shakespeare company. The play, the space and Warner's spartan style sparked each other. The actors, on whom everything depended,

came through with performances both forceful and delicate. The production kept every line, and made every one of them work. The play generated not only horror but compassion. Brian Cox as Titus, an embryonic King Lear, occasionally brought his mad transports to the edge of farce — but only to the edge. He is an actor who may yet bulldoze his way to greatness. This was the RSC fulfilling its historic function, renewing a Shakespeare play for us. and renewing itself in the process.

It hasn't happened in the main house for several years and the odds are heavy. But that it can happen is ample reason for preserving the RSC. I imagine that the company will weather its present crisis. American philanthropy built the Swan, and private money could bale them out again. The government might even have a change of heart. Arts Minister Richard Luce's latest pronouncement is that future grants of public money will be linked to clients' ability to raise their own. This means that many organizations will go under, but the RSC is better placed than most — it can exploit its hits. "Les Miserables" is a terrible musical, but we have to be grateful to it for bringing in volumes of

Many RSC activities are respectable enough to attract private sponsors, though private sponsorship never can — and never should — replace public. It is unreliable, and it can come with strings.

It may be that the RSC will have to retrench to Stratford alone and — though I hate to say it — that might not be the worst thing that could happen. The three theaters would still provide a sufficient variety of work, and they could concentrate, with some of the pressure off, on renewing their approach to Shakespeare. If that goes, everything does.

Robert Cushman is a leading London theater critic

Aniony Sher as Malvolio and Deborah Findlay as Olivia in the current production of "Twelfth Night."

Haunting Strains of the Soundtrack

by Donal Henahan

EW YORK - Oh, the power of music to stir the coals of memory - and, pace Noel Coward, it needn't be cheap music, either. Although 20 years must have passed since I saw Bo Widerberg's "Elvira Madigan" for the first and only time, the mood of that sweetly pathetic, sun-dappled Swedish film came stealing back the other evening as I sat listening to Alicia de Larrocha play the Andante from the Piano Concerto No. 21 at a Mostly Mozart concert. This has happened to me before during especially sensitive performances of this work and I invariably feel guilty. No doubt I should, a little.

My generation of music critics was taught to be uncompromising in such matters. I was therefore not surprised to see the evening's program notes ticking off the film as usual: Widerberg is unforgiven, it seems, for having "brutalized" Mozart's poignant piece in the pursuit of cinematic gain. That certainly has been the conventional wisdom among us serious Mozartians ever since Widerberg excerpted the Andante from Geza Anda's recording of the concerto and turned it into a soundtrack back in 1967.

However, I have found my own righteous disdain softening in recent years. It still bothers me when certain deeply cherished pieces of music are merged with visual images in such a way that the sounds take on a film maker's specific meanings, thereby depriving me of my own -or at any rate trying to. In that respect, laguar Bergman has a lot to answer for in the next world. I can't pinpoint which of his films to blame, but whenever I hear a recording of Casals playing a Bach suite I am trapped in a dark room with a morbidly depressed woman. Outside the window, I believe, large black birds flap menacingly. It is hard for me to believe that

Casals is somehow not to blame. But directors are not going to abandon the practice of stealing from the classics, and why should they, when a few bars of, say, the "Moonlight" Sonata can quickly establish the atmosphere they need. Rather often, of course, the fit is not perfect. For his "Jean de can think offhand of only a few similar

Ingmar Bergman (right) has a lot to answer for: 'when I hear Casals playing a Bach suite I am trapped in a dark room with a morbidly depressed woman.'

Milos Forman (above) and Mozart: a certain amount of dismay was registered over the pot-pourri of music served up in "Amadeus."

Florette," a notable film in so many ways, Claude Berri uses themes from "La Forza del Destino," probably as a literary device to point up the doorned hero's struggle. However, Verdi's music adds little to the film beyoud the ironic humor of its title.

For "Elvira Madigan," on the contrary, the choice of music was clairvoyantly right. The innocent sentimentality of the film was both tempered and refined by the pathos of the Mozart melody, with its pained, throbbing accompaniment. It did not burt, of course, that the camera work was memorably beautiful, offering painterly images that the music helped imprint on the memory.

Such a perfect match between filmed dra-

ma and music does not happen often, but

when it does, it ought not to be scorned. I

examples, though you may have a dozen of your own. It is difficult to imagine, for instance, what Werner Herzog's "Fitzcarraldo" might have been without its Caruso records weaving in and out of the dramatic fabric. It will be a long time before I lose the sound and sight of that crank-up phonograph on the prow of the obsessed opera lover's steamer, croaking its siren songs at unseen natives in the Amazonian jungle. Caruso was not dishonored by being shanghaied into this film, far from it. In a sense, he was its true hero and moving force.

Luchino Visconti, whose use of music in his films is often heavy-handed, could hardly have chosen more sensitively in his "Death in Venice," which opens with a motor launch carrying Aschenbach toward Venice while the Adagietto from Mahler's Fifth Sympho-

day: an exhibition of more than

ny murmurs its message of resignation and deathly calm. Perhaps less strikingly right but memorable enough is the scene in the salon where the dying writer watches as the beautiful boy Tadzio haltingly picks out with one finger the first few measures of "Fur Elise." The innocence of the tune is thrown into contrast with the old man's guilty inti-

There is excellent music whose use in films somehow does not bring charges of brutalization. Nobody, as I recall, thought that Ligeti and Johann Strauss (the son) were degraded when Stanley Knbrick grafted recordings of their works onto his "2001: A Space Odyssey." Some Bizet admirers certainly did tear their garments over "Carmen Jones" and probably not all Verdians thought "A Night at the Opera" did "Ii

Trovatore justice. But generally music lovers tolerate such plundering of the classics quite well. George Balanchine was not ac-cused of brutalizing Tchaikovsky's "Sere-nade for Strings" when he made one of his greatest ballets of it. His "Scottish Symphony" was also greeted without much rancor, although it dispensed with the first move-ment of Mendelsachn's score. There was indeed a certain amount of dismay registered over the potpourri of Mozart served up in "Amadeus," perhaps because most critics believe, with some justice, that he is the composer who most deserves to be protected

from pop-cult exploitation.

Still, guilty as charged, I would have to admit that I found myself enraptured rather than outraged by the strains of "Soave sia il vento," the trio from "Cosi fan tutte" that

recurred throughout John Schiesinger's "Sunday, Bloody Sunday." Here, I think, a director happened upon the ideal piece to sum up and dramatize the tangled emotions of his three characters. It is hard to begrudge him his triumph, even if I find that I listen to Mozart's brief but potent trio at the opera nowadays with some ambivalence reminded of the film's alfusive mood and yet a bit irritated at the distraction.

All I am saying, your honor, is that I find it possible to love the slow movement of Mozart's Piano Concerto No. 2! for its musically pure, unspecific self alone, while still, permitting memories of "Elvira Madigan" to steal upon me when I hear it played well. So,

COLONEL, I GOTTA TELLYOU— WE'VE GOT ALL THE ELEMENTS

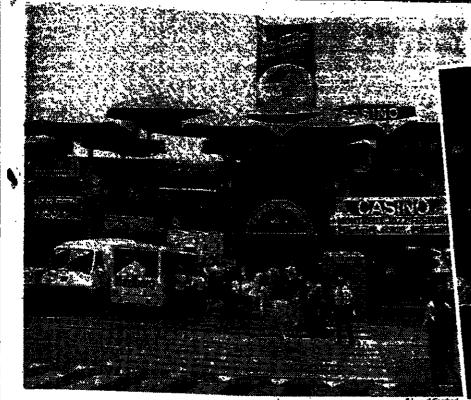

WEEKEND

Jazzing Up

by Mike Zwerin

KIOSK in the lobby of the casino where the Montreux International Jazz Festival was held this month displayed little boxes containing what the French call capotes anglaises and the English call French letters, condoms in plain American. Overwhelmed by the implications, a critic exclaimed: "Now nobody can deny that jazz is a contemporary art

If you've ever been to one of these festive gatherings and seen a girl listening to George Benson with a "Michael Brecker Sound Krewe" T-shirt, you'll know what he meant. If not, let me explain. I count something like 150 summer jazz festivals in Western Europe, more than ever. Needless to say, there are nowhere near enough fans to go around. What is the secret? I thought you'd never

People of all races, ages and persuasions are increasingly eager to come to these circuses, picnics, conventions, family reunions and fashion shows rolled into music to see eight clean young men from New Orleans wearing "Dirty Dozen Brass Band" T-shirts. And to buy the other four.

I am, of course, speaking of T-shirts in the cosmic sense. Image is all; you are what you wear. With the condom box, jazz has moved fearlessly out of the T-shirt age into the future. The box has a chic colorful design on the cover and a clip on the back. It can be

wom as a badge advertising cultural relevance and safe adventure — perfect meta-phors for the new jazz. It can also be rensed to hold earplugs, which might come in handy should you ever be put in the unfortunate position of actually having to listen to any iazz at a jazz festival.

I overheard an American couple's heated discussion about this unlikely eventuality while a band called the Krokodilos played unsung on the sunny casino terrace, where the official Montreux Festival holds its offi-"Off-Festival" (only in Switzerland could this happen, but that's another story). These afternoon concerts were free and the terrace was bustling with joyful people tickled pink not to have to sacrifice their tan for ire — and not to have to pay 55 Swiss francs to not listen inside. She was wearing an "I Love Brazil" T-shirt.

He: "Look! Nobody's paying any attention to the music around here. What an redible lack of respect. Did you hear what

She (putting down her camera): "These people are enjoying themselves, sourpuss. Remember fon? You can't beat fun. Music is convivial. The fact that it brings people to-gether is the important thing. I consider this festival an enormous success. The social function is more important that the music."

A noisy young bunch began to spin a Frisbee in German by the swimming pool

He (louder): "Do you mean that jazz is not

Wow, man, what a drag."

She (screaming): "Don't call me 'man'!
People want to belong to something. To be part of a community. I find that totally normal. Jazz doesn't have to be intellectual. It's not my fault that Charlie Parker didn't make enough money and was so alienated he

So much for sociology. Now for art. The Montreux Festival hires famous painters to design its visual image. This year, François Boisrond followed people like Yves Tinguely, Niki de Saint Phalle and Keith Haring - an illustrious line. Boisrond designed the poster and the T-shirts as well as the cover of the breakthrough box.

I spoke with Boisrond in a café facing the casino on Rue Stravinsky. The tabac next door sold Blue Mitchell, Bud Powell and Michel Petrucciani postcards (cheaper and less taxing than having to listen to them). The casino, a grand prix racing car of a building, appeared to contain a Sponsor Fes-tival, with "Casino," "Le Clip," "Marlboro" and "Coca Cola" towering over poor little

Speaking of Stravinsky, Patrick Peikert, a serious and likable young music student working in the festival press office during his vacation, told me that Igor wrote part of "Petrouchka" when he lived in Montreux. Peikert sat down at the piano and played some Bach one morning, which may have been the musical high point of the festival's Metheny's electronic sampling, the sound and fury of the French rock group Rita Mitsouko and the pleasant Brazilian singer Joao Bosco. Nary a hornblower.

Boisrond said he tried to capture the spirit of jazz with his designs by listening to Louis Armstrong records while working on them, which is nice to hear from a 28-year-old French painter. On that - pardon the expression — note, it is time to bid a fond farewell to this lovely lakeside resort on the Swiss Riviera.

The French ditto, three days later. Although Nice and its "JVC Grande Parade de Jazz" are both still rooted in the T-shirt era, there are signs of progress on the beaches, where women wear no shirts at all. I am also pleased to report that there is, if anything, too much music up on the hill in the Gallo-Roman ruins of the Cimiez Gardens where three bandstands locked horns from 5 P.M. till midnight for 10 days. With a seven-hour choice of 21 bands for only 100 French francs, you don't waste much money not listening. And with the right placement you could hear Stanley Jordan, Stephane Gra-

same time. The crossroads is the centrally located outdoor Creole restaurant where tridimensional music floats over jambalaya, red beans, rice, fried chicken, sausages, water-melon, brownies and chilled rosé. I took my 11-year-old son to Nice. He preferred Stan-

pelli and the Count Basie Orchestra at the

So much for gourmandise. Time for sociology. Overheard: American musician to local: "What do

From left, Montreux festival; Fats Domino at the Sporting Club, Monte Carlo; and devotees in Nice.

you do in Nice when there's no jazz festival?" Local: "Drink." The trumpeter Wild Bill Davidson: "I'm 81. I stopped drinking three years ago and it took me two years to stop shaking. I've had plenty of time to calculate it. I figure I drank enough whiskey to float all the battleships in

People of all races, ages and persuasions are eager visitors:

French musician to American musician: 'How do you say 'J'aime votre musique' in English?" American musician: "Buzz off." Another American musician: "The James

Cotton Blues Band made me sit in with them so I could get my Chicago citizenship back." Road manager to festival official: "Re-member, Chuck Berry's contract specifies a Mercedes 330 with automatic transmission." Reporter to Chuck Berry: "I'm with the Christian Science Monitor." Chuck Berry to

reporter: "It can be the Salvation Army for

all I care."

I took a six-minute helicopter ride to hear Fats Domino in Monte Carlo. The Salle des Etoiles in the Sporting Club looks like an artificially colored set for a black-and-white Fred Astaire dance routine; the people dining at the table look like extras. The menu included "Le Saumon Frais Parfume" and "Le Magret de Canard aux Pêches," and if you have to ask how much it cost you can't

Domino, known as the "Father of rock 'n'

roll," appeared at Le Sporting as part of a summer-long series including Dionne War-wick, The Pointer Sisters, The Temptations and Donna Summer. Nobody claims this is a jazz festival but, as we now know, this has nothing whatsoever to do with anything.

Accompanied by his roaring big band, Domino finished his dynamite set at exactly midnight on Bastille Day. Fortunately. The only act fit to follow him began immediately afterwards — a fireworks festival.

Back in Nice, I realized that after all some jazz never went through a T-shirt period. The Modern Jazz Quartet is one exception to the rule. Those four classic gentlemen in their gray double-breasted suits and red-andwhite polka-dot neckties lead us to another exception, Miles Davis (everything seems to lead to Miles Davis). Thirty years ago, while still in his Brooks Brothers period, he said: "Looking good is half the battle." Now wearing gold lame, he has become the first jazz great to have a hair transplant. Miles was always ahead of his time.

The rear of the tree-studded lawn facing the "Garden Stage" is about 100 yards from the bandstand. There was plenty of room back there to play catch with my son. Miles Davis's current ramblings on the frontier between minimalism and nuclear fission make total sense accompanying a game of catch 100 yards away. A man in a straw hat fell out of a tree trying to play "Decoy" on his clarinet while a white dog with black spots chased our yellow tennis ball barking on two and two. Have I ever lied to you?

40th Avignon Theater Festival: Program of Remarkable Range

by Thomas Quinn Curtiss

VIGNON — As Avignon celebrates the 40th anniversary of its annual theater festival, the city has taken on a carnival aspect. At the head of the broad promenade, La Place de L'Horloge, a merry-go-round spins. Jazz bands and congo drum ensembles alternate in conducting concerts before the café terraces.

Actors in feathers march to remind idlers about a performance of Aristophanes's "The Birds." A witch totters along to cast her spells at a children's entertainment. Total theater has taken over.

Alain Crombecque, the festival's administrator, a man of wide knowledge and expetience, has drawn up a program of remarkable range. Topping its calendar was Antoine Vitez's production of Paul Claudel's epic spectacle of Spain's glory in the 16th century, "Le Soulier de Satin." In the immense open-air courtyard of the Palais des Papes, it was performed impressively against the cas-tle's facade, and for the first time exactly as it was written, requiring almost nine hours.
Its staging here was divided into two eve-

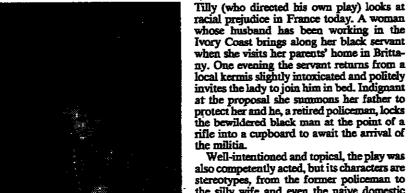

nings, but on special occasions it was offered at a single gulp, beginning at nightfall and continuing until sunrise, a mighty test of

Claudel thought it beyond theater possibilities and refused requests to stage it after it was published in 1930. Jean-Louis Barrault convinced him to edit it to five hours and place it in the Comèdie Française repertory in 1942. It has often been revived in the modified version since. Last year a Portuguese movie company shot it—in French—as a television serial that also received the ater release but this was a mere photographing of the scenes and very uncinematic

Its cycle of brief scenes are framed into sections—not acts, but "day's journeys," as they were termed by Spanish dramatists of the Baroque era. This permits boundless scope as the action moves swiftly from Spain to Africa and the newly discovered lands across the Atlantic, and on occasion to the heavenly realms. Claudel employs the scheme to dovetail the history of Spanish expansion with a thwarted love story.

Doña Prouhèze, unhappy in her marriage to an elderly husband, is enamored of Don Rodrigue, a warrior empire builder, who is also smitten with her. She places one of her satin slippers before the statue of the Virgin so that she may enter only stumblingly into the adultery she intends. Duty and circumstances keep the lovers from the sinful step and the dona, having sacrificed passion for purity, dies in a state of grace, promised by her guardian angel that she will shine as a

star for her virtue. Vitez has endowed his mise-en-scene with swift movement and theatrical invention, but some of the acting falters. Ludmila Mi-kael, usually an excellent actress, conveys Dona Prophèze as though the heroine were delivering a poetry recital, impering lovingly on the beautiful lines but neglecting the role's histrionic side. Nor is Didier Sandre's

also competently acted, but its characters are stereotypes, from the former policeman to the silly wife and even the naive domestic from the Ivory Coast. Only the young daughter of the insulted woman, who sympathizes with the black man, has any anthenticity, though she has been sentimentalized. For a protest piece about rising racism, the script is rather tame, actually a mildly satirical comedy about the stupidity that reigns over a middle-class family trying with imbecilic bigotry to hold the color line.

Among other highlights of the festival was new French production of Eugene O'Neill's "A moon for the Misbegotten." Robert Pinget, who took to playwriting in the 1960s and has established a cult following, is a guest of honor, and several of his

plays were performed. There is some light entertainment on the off-Avignon schedule. "The Assassin Is in the House" burlesques crime fiction with its detective duo - Francis Ginibre and Eric Carriere — illuminating the theater in a search for a killer at large and holding as murder suspects members of the audience. Another escapist interlude is "Les Peripatéticiens" in which two gigolos who have been shipwrecked on a desert island find another survivor, a dowdy female and, working their professional charms, convert her into a desirable sex object. Both these divertissements are on view at 6:30 P.M. in the Ciné-Vox theater. This permits one to attend a main

event later in the evening.

Jacky Azencott is repeating his dynamic adaptation of Céline's "Mort à Crédit" at the Théâtre du Balcon. This fascinating tour-deforce holds spectators riveted with its fury and power. At the Restaurant Le Vernet, Mentor de Cooman is impersonating the 18th-century epicure Brillat-Savarin, author

of "The Physiology of Taste," Two exhibitions are musts. One is devoted to the festival's history and the work of its founder, the late Jean Vilar, who, among other feats, discovered Gérard Philipe as a classic actor and guided the festival's course through thick and thin, acting and directing many memorable productions. Claude Roy's biography of Vilar has just been published by Calmann-Levy. The centenary of Louis Jouvet's birth is being commemorated with a show of the scenic decor and posters of his productions. He, too, has been honored this year with a new biography, by Jean-Marc

The festival continues until Aug. 6, mostly with dance and music.

"I have never read a food or restaurant critic that I have found to be so reliable, so thorough, and who makes me so damn hungry..." Robert M. Parker

From the author of the acclaimed Food Lover's Guide to

The Food Lover's Guide to France by Patricia Wells

Patricia Wells' new book is a mouth-watering guide that leads food lovers through the gastronomic pleasures of France from North to South and East to West. Traveling over 30,000 miles on an exhilarating Culinary treasure hunt, Ms Wells writes of her discoveries: great restaurants, cafés, markets, pastry and cheese shops.

Chapters are arranged by province and include a description of the region, a map, best months to visit, and other details. A French English glossary provides handy translations — and 75 authentic recipes from local chefs allow travelers to recreate French food

Patricia Wells is restaurant critic for the International Herald Tribune and an award-winning contributor to the New York Times. Order her new book today and capture the food magic of France.

Don Rodrigue a complete portrayal. The outstanding performances are elsewhere — in Jany Gastaldi's Doña Musique and in Robin Renucci's characterization of Prouhèze's second husband. Vitez's staging will be seen in Paris in the fall at the Théâtre de Chaillot.

Harold Pinter arrived at Avignon to inspect a production of three of his recent playlets by members of the Comédie Francaise at the Cloître des Carmes in an openair auditorium. Pleased with the performance. Pinter took the stage to thank the

The trio of one-acters, deftly done in French by Eric Kahane, bears the covering title "Autres Horizons." In the first a luckless woman who fell into a coma and remained unconscious for 19 years is awakened from her slumber and finds she has been cheated of life's springtime. The second is a humorous fantasy in which a taxi driver enters into a dispute over the two-way radio with the dispatcher who orders him to hurry to Victoria Station, of which the absentminded chauffeur has never heard. The last, "One for the Road," is a chilling sketch of the breakdown of a political prisoner under

Nissan Plans New Model, Separate U.S. Dealers

BEVERLY HILLS, California — Nissan Motor Co. has said it plans to launch a luxury sedan and sports car line called Infiniti, and will create a separate U.S. dealer network in the fall

create a separate U.S. dealer network in the fall of 1989 to market the cars.

Without disclosing what the new cars will look like or cost, officials said they hoped to sign between 60 and 70 dealers by January to market a four-door sedan with a V-8 engine and a six-cylinder sports car that will have leather seats and four-wheel steering.

Nissan is the second Japanese auto maker to launch a separate dealer network, following Honda Motor Co., which started dealerships for its Acura luxury cars in 1986.

The Infiniti dealers will be required to make a multimillion dollar investment in order to build or purchase separate showrooms and other facilities to market the cars, Nissan officials said. They also hinted that the cars would be backed by a new sales and service program but they declined to disclose details.

\$65 Million Loss For Data General

WESTBORO, Massachusetts—Cooper electrolythe Cooper electrolythe International Cooper electrolythe Internatio WESTBORO, Massachusetts

1986 fiscal year. Revenue in the three months ended in June was \$313.6 million, a 3 percent decline from \$325.3 million a year earlier. Data General said its restructuring included the consolidation of some manufacturing field engineering and other fa-cilities that would result in the elimination of about 950 jobs and the closing of three major facilities.

WALL STREET WATCH For Buyers of New Issues, Assortment May Be Wisest

By VARTANIG G. VARTAN

New York Times Service

EW YORK - If the bull market keeps rolling along. selected companies going public for the first time are also likely to prosper, according to Standard & Poor's Outlook. "New issues as a group," it said, "tend to exaggerate the underlying trend of the overall market."

By way of illustration, the new-issue index compiled by S&P rose 31.8 percent in the first quarter of this year, compared with a 20.5 percent advance in its 500-stock index, which consists of more seasoned, better-known issues.

Conversely, when the latter index slowed to a gain of 4.2. percent in the second quarter, new issues actually declined by 4 percent. The new-issue index

Even in a bull

disappointing.

can be

market, new issues

measures the performance of major initial public offerings, excluding banks and savings and loans, during their first six months of trading.

The first half of 1987 was a

boom period for new issues, according to "Going Public: The IPO Reporter," a publica-

tion that monitors this sector. Total volume reached \$14.8 billion, compared with \$8.8 billion in the first six months of last year. The full-year volume record of \$22.4 billion was posted in 1986. There is a good chance that 1987 will be a new record year," said Susan Gallant, editor of Going Public.

The dream of many investors is not simply to buy shares of a company when it goes public, but to purchase a "hot" new issue. This is Wall Street's term for an initial offering that is expected to jump immediately in price. Earlier this year, for example, Aldus Corp., which manufactures Pagemaker, the leading desktop publishing software, was perceived by market professionals as just such a sought-after issue.

And right they were. On June 16, the 2.2 million shares of Aldus opened at \$20 and soared to \$35.75 by the close of that

Hot new issues also were emphasized in news reports concerning investments made by a money manager in a blind partnership with Attorney General Edwin Meese 3d. Most of the trades made by the money manager, W. Franklyn Chinn, were in initial public offerings, and many were in hot IPOs such as Microsoft, Reebok and British Airways. Overall, the blind partnership made \$39,845 in trading profits on an initial investment of \$50,662.

NFORTUNATELY, the small investor rarely has the opportunity to snare hot new issues just as they come out of the chute at the offering price. That privilege usually goes to institutional investors and wealthy individuals who are big customers of the investment houses that parcel out the new offerings. Often, these buyers "flip," or sell, the new issues on offering day and pocket an immediate profit. That, for instance, was the method used by Mr. Chinn in the Meese investments.

But there is an alternative for the average investor, the Outlook said. "A strategy of looking for opportunities among issues that have gained some seasoning in the after-market may prove sounder than attempting to chase hot new issues immediately following their public offering," it said. "A period of trading also permits the value of new issues to be more efficiently established by investors, rather than by the underwriter's best guess."

For one thing, even in a bull market new issues can disappoint their initial buyers. "The biggest loser in the first half of 1987 was Presto-Tek, which sells self-service drinking water machines," the Outlook said. By June 30, this stock was down 63.6 percent from its offering price.

To reduce the risks inherent in purchasing new issues, the S&P publication recommends buying a package, rather than just one issue. Using this strategy, it suggests that aggressive investors might consider three recent offerings: Forstmann & Co., a leading fabrics producer; Timberland Co., which makes quality footwear, and TJX Companies, which includes the T.J. Maxx and Hit or Miss off-price apparel store chains.

Texas Air Computer Contract

Ticket System Set For Europe

HOUSTON — Four European rlines have picked a subsidiary of Texas Air Corp. to help devise a \$300 million computerized reservation system, following a similar agreement announced earlier this month between United Airlines and three other European carriers.

Texas Air said Thursday that its System One reservations network had been selected by the airline group known as Amadeus, com-prising Air France, Lufthansa AG, Iberia Air Lines and Scandinavian

In Europe, many of the 30,000 travel agents do not have centralized information or reservations systems, and most national carriers have systems that favor their own flights when travel agents seek in-

The Texas Air plan, for which International Business Machines Corp. will be the major contractor, edged out a proposal for a similar system from American Airlines.

Last week, an industry official had said that although the Amadeus group favored American's Sabre system, it disagreed with American's plan to take a stake in the European network, a condition not required by Texas Air.

In New York, SAS said the contract for IBM was valued at more than \$100 million.

Texas Air said the new Amadeus system, scheduled to begin operating by mid-1989, would be linked to System One's existing network. This would allow direct access by more than 15,000 travel agencies in the United States, Europe, Africa, the Bahamas, the Caribbean and Central and South America.

United, a domestic U.S. airline, announced with British Airways, Swissair and KLM Royal Dutch Airlines a partnership to invest \$120 million for a model of United's Apollo system, set to begin operating next year for the 30,000

Thomson-GE Swap: Everybody Wins

French Gain in Consumer Area. **GE** in Medical

By Jacques Neher

Special to the Herald Tribune PARIS — A surprising asset swap in which General Electric Co. will trade its giant consumer electronics business for the med-ical equipment unit of France's Thomson SA was described by executives Thursday as a "winwin" deal that will transform both Thomson and GE into major players in their respective

Analysts, most of whom admitted to surprise over the trans-Atlantic exchange, agreed with that assessment

Thomson, with 1986 profit of \$265 million on revenue of \$9 billion, is among the state-owned in the next year or two. The deal with GE is likely to make that sell-off more successful, one ana-

Bill Coleman, an analyst with James Capel & Co. stockbrokers in London, said he was staggered by the asset swap, which he called a brave move by Alain Gomez, chairman and chief executive of Thomson. "Thomson was really only

strong in France and Germany in consumer electronics," he said. "He took what was likely to become an also-ran and catapulted it into third place." The consumer electronics

market, he said, "is one in which you're either big, or you don't survive. There are no halfway

for GE to sell its \$3-billion-ayear RCA and GE television, videocassette recorder and audio equipment business to France's state-owned Thomson. Thomson would combine this with its own consumer electron-

ics unit, Thomson Grand Public, becoming the third largest such company in the world, with annual sales of about \$6 billion. In return, Thomson's 51-percent-owned subsidiary. Thomson-CSF, will hand over to GE

Paolo Fresco, right, a GE vice president, with Jean Segui, the president of Thomson-CGR, in Paris.

Alain Gomez

last year generated sales of 4.76 billion francs (\$780 million). GE would become the world's largest company in that industry, with sales of \$2.2 billion.

Thomson would also pay GE an undisclosed amount of cash, which one source put at around The contract, announced late \$800 million. It would also pay Wednesday in New York, calls an estimated \$150 million over the next five years in royalties and license fees from its GE and RCA consumer products.

"It's a deal that benefits both companies," said John Welch, GE's chairman.

He said consumer electronic had become a stepchild at GE, which in recent years has diversified into broadcasting and financial services.

Although GE is No. 1 in the U.S. market for television sales, with its RCA and GE brands its medical imaging business, holding a 25 percent share, the called Thomson-CGR, which business was only marginally

profitable against Japanese com-

GE's withdrawal from the business it pioneered with RCA in the 1920s and 1930s leaves Zenith Corp. as the only major U.S. manufacturer of television sets and other video equipment. GE said that about 31,000

consumer electronics employees at 17 manufacturing plants would be transferred to Thomson. About 10,000 of those workers are in the United States, and many worked for RCA, which was bought by GE in 1985 for \$6.5 billion.

The sale is the latest in a series of dramatic moves by Mr. Welch to restructure GE.

In addition to the purchase of RCA and its NBC broadcasting subsidiary, Mr. Welch has great-ly expanded GE's position in fi-

Bank of England Issues Rules for Dealers' Capital

LONDON - The Bank of En- rowers exchange debt obligations gland staked a claim Thursday to in various currencies to cut financregulating key London-based inter- ing costs, has become a key componational markets, despite the fact nent in the funding programs of that it has no legal authority to do many nations and companies.

The British central bank issued a report outlining new standards for don's international markets could how much capital dealers in currency, bullion, short-term interestbearing instruments and swaps re- and might lack the financial re-

quire.
There is no requirement for dealers to comply, said one senior banking source who has been involved in the months-long discussion of the report. "This is a non-

statutory regime."
The Securities Association, a self-regulatory organization set up rower. has outlined different — and less

onerous — standards. Billions of dollars worth of currencies are traded in London every day. London is also a major center for the international trade in gold, and short-term debt instruments that change hands here are a key part of the portfolios of big investors around the world.

But the central bank has been worried that rapid growth of Lonmean some of the firms dealing here could over-extend themselves, sources to weather hard times.

For example an investment bank intent on arranging a bond issue for a customer could perform a swap on its own books to help cut the customer's financing cost, taking the risk that it could later sell the swap obligation to another bor-

Competition among banks and securities firms for much of the more-innovative business has been fierce — in some markets, profit margins have been cut sharply.

The Bank also said it was doubling the amount of bills and certificates of deposit that discount ernment bonds may hold.

U.S. Durable Orders Up 1.4%

The Associated Press

WASHINGTON — U.S. orders for durable goods, bolstered by a sharp rise in demand for military hardware, climbed 1.4 percent in June, the biggest increase in three months, the Commerce Department reported Thursday.

The department said that orders for durable goods, items expected to last three years or more, rose to a seasonally adjusted \$108.53 billion last month following no change in

It was the biggest monthly gain in durables orders since a 4.2 percent increase in March. But without the big increase in the defense category, orders would have been unchanged in June following a revised 1.6 percent rise in the civilian categories in May.

Orders in the military category climbed a sharp 15.8 percent in June, reversing a 13.9 percent de-

Orders in the key category of nondefense capital goods declined 3 percent in June to \$29.09 billion, the biggest setback in that sector since an 8.7 percent drop in January. But analysts had anticipated. that weakness after strong in-creases in April and May that were attributed to a surge in demand for civilian aircraft.

Economists said the June figures reflected a trend of slow recovery in industrial growth that they expect to continue into next year.

"What we have in the orders data is signs of a shallow upturn for the manufacturing sector," said Allen Sinai of Shearson Lehman Brothers

GM's Profit Declines, **But Ford's Sets Record**

Compiled by Our Staff From Dispatches profit on its core vehicle business fell 28 percent to \$781.9 million in the second quarter from a year ago as sales fell. Its overall profit, inpercent to \$980 million

Meanwhile, Ford Motor Co., the nation's second-largest automaker, again outearned its bigger rival, re-porting a record \$1.5 billion profit in the second quarter, up 39 per-cent from the \$1.08 billion in the like period a year ago. Sales rose 13 percent to \$19.5 billion from \$17.3 billion, as Ford increased its unit sales to nearly 1.7 million vehicles worldwide, while GM's unit sales fell to 2.06 million.

Ford, which beat GM's profit in the first quarter and for 1986 as a sharply from the first quarter to the whole, raised earnings to \$5.81 a second," she added. "I think Ford

GM, which last year ranked as the world's top industrial organiza-tion, had carned \$1.018 billion overall in the second quarter of 1986. Its per-share earnings fell to \$2.80 in the most recent quarter from \$2.92 in the year-earlier period, on overall sales of \$26.7 billion, down 3.3 percent from \$27.3 bil-

Declines by 13% To 17 Billion SF

VEVEY, Switzerland - Nestlé SA said Thursday that group sales had fallen 13 percent to 17 billion Swiss francs (\$11 billion currently) in the first half of the year. It blamed currency factors and low raw coffee prices

The food and beverage group gave no profit figures but said that it expected to be able to hold fullyear net profit at the level of last year's 1.79 billion francs.

Some Swiss security analysts said they expected a slight selloff in the shares of Nestle.

Thierry Lacrax at Pictet & Compagnie in Geneva said: "We all realise that Nestle is not really a Swiss company, and that only 2 percent of its sales come from Switzerland. So the decline of the dollar s going to have an immediate ef-

Deutsche Bank Seeks 50% Of Canada Broker, McLean

FRANKFURT — Deutsche Bank AG, West Germany's largest commercial bank, said Thursday that its Canadian subsidiary would seek to buy a 50 percent stake in a Toronto stockbrokerage, McLean McCarthy.

McLean McCarthy is represented on the Toronto and Montreal stock markets. The German bank, which has commercial banking operations in Canada, sees the purchase by Deutsche Bank Canada as a way of becoming active in Canadian financial markets. It did not

estimate the value of its planned acquisition. New Canadian banking laws that went into effect July 1 allow the purchase of up to 50 percent of a securities dealer in the province of Ontario by a foreign interest. First Chicago Corp., the lith-largest U.S. bank holding company, said last month it would buy a 35 percent interest in the investment dealer Woody Gundy Inc. for 271 million Canadian dollars (\$205.2 million).

Lanerossi Sale Creates Textile Giant

MILAN -- The takeover of Lanossi by Marzotto SpA will create Italy's largest textile company, with annual combined sales of 1.3 trillion lire (\$966 million).

I ancrossi was the textile subsidiary of Ente Nazionale Idrocarburi, or ENI, the state energy and chemical holding company.

The new grouping will be larger and to carry ou than Benetton SpA, which was the 40 billion lire.

other main contender to purchase Lanerossi. Benetton has annual sales of 1.1 trillion lire and Lanerossi is one of its biggest suppliers.

Marzotto offered a cash purchase of 168 billion lite, which was 2 billion more than the floor price

set by ENL ENI agreed Wednesday to sell Lanerossi to Marzotto. Marzotto plans to increase Lanerossi's capital by 60 billion lire, and to carry out new investment of

Smiths to Pay \$350 Million For Lear Unit

LONDON - Smiths Indus tries PLC said Thursday it had agreed to buy some of the aviation electronics operations of Lear Siegler Holdings Corp. for \$350 million.

The British instrument-maker will finance the acquisition with 71.94 million new shares valued at £223 million (\$355 million), which are being placed with large institutions. Shareholders can buy them at the same price, 310 pence each, getting one for every three they now hold. The shares closed at 339 Dence Wednesday

Forstmann Little & Co., the New York investment firm that bought Lear Siegler in Decem-ber, had announced plans to sell the aerospace operations. In the financial year ended in June, the avionics unit raised

OSLO — Norsk Hydro A/S. rose to 328 million kroner in the Norway's biggest diversified corpo-second quarter, compared with 159 ration, said Thursday that higher million for the 1986 quarter. This, earnings from fertilizers and petro- it said, reflected higher chemical chemicals had helped raise its after- fertilizer prices, especially in Norsk

Earnings for its oil and gas division fell in the first six months to cent owned by the state, said it had 1.1 billion kroner from 1.16 billion

The company blamed lower gas prices, which are calculated according to the previous year's oil prices. North Sea oil prices plunged last ally, to 28.45 billion kroner from year from about \$30 a barrel to \$9 before recovering later in the year. Company officials cautioned A barrel of oil now costs about \$20

Norsk Hydro's petrochemicals ation for chemical fertilizer and oil division showed operating revenue of 344 million kroner for the first The collapse of these two mar-half of 1987, reversing a 100 million kets last year gave Norsk Hydro a kroner loss a year earlier.

The company's light metals divifirst yearly loss since 1944, after it sion had operating revenue of 605 had posted a profit of 2.08 billion million kroner for the first six months of 1987, against 530 million This year, operating revenue for for the year-earlier period.

Digital's Net Up 58% in Period

New York Times Service NEW YORK - Digital Equipment Corp. has reported that net income in its fourth fiscal quarter jumped 58 percent from a year earlier. Digital said Wednesday i

employees were scattered among earned \$377.3 million, or \$2.85 Software development has a share, on revenue of \$2.67 lagged far behind advances in billion, up 23 percent. Net income of more than \$3 a share "It has become clear to us that had been predicted. Analysis said the company had artificialtion software, our customers ly restrained shipments recently, and was planning to raise them to offset an expected full in sales in September.

The analysts noted an increase in orders for Digital's VAX computers, and suggested that Digital was continuing to pull market share from International Business Machines Corp

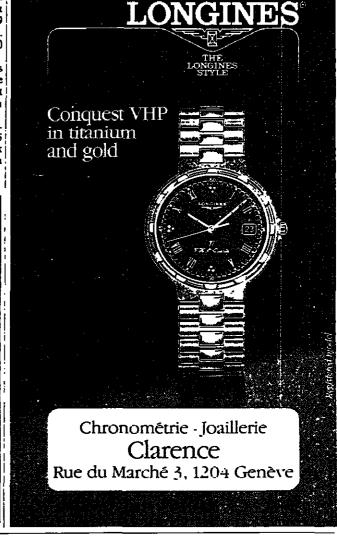

2 U.S. Papers Report Profit Gains

The Washington Post Co. and The New York Times Co. have

reported substantial gains in second-quarter earnings.

Net income at the Post rose 39 percent to \$42.4 million, or \$3.29 per share, from the second quarter of 1986, the company said Wednesday Revenue rose 8 percent to \$339.1 million. The Post, the Times and Whitney Communications Co. own the International Herald Tribune.

The Post attributed the gain to a lower tax rate, reduced interest expenses on debt from cable television acquisitions, and solid performances by its newspaper unit. Newsweek magazine, and TV stations. Earnings at the Times rose 19.8 percent in the second quarter to 544.1 million, or 54 cents a share, from a year earlier. Revenue increased 6.3 percent, to \$426.3 million. The Times newspaper group reported a 4.9 percent gain in operating profit, to \$77.6 million. Bu operating profit for its broadcasting-cable television group declined 15.1 percent, to \$4.5 million.

Wharf's Profit Rose 21% In Year, Below Forecast

HONG KONG — Wharf (Holdings) Ltd. reported Thursday that its net profit climbed 2i percent to 859.2 million Hong Kong dollars (\$110 million) in the year ended March 31. The result was below analysts' predictions of 880 million dollars or more.

The earnings compared with 1985-86 net income of 706.9 million dollars. Wharf's chairman, Peter Woo, attributed the lower-thanexpected growth to below-par rental income from the fourth phase of a development in the Tsimshatsui waterfront district in Hong Kong, where most of the group's property portfolio is centered.

Wharf also posted reduced earnings from interests in semiconduc-tor manufacturing operations, in line with a global downturn in the industry, he said Wharf's fiscal 1987 results showed an extraordinary gain of 161.7

million dollars, largely derived from the sale of a 55.6 percent interest in Lane Crawford Holdings Ltd. in October. A 10-for-100 free scrip issue of shares in Hongkong Realty & Trust Co. in May substituted for a final dividend.

Wharf said it anticipated good earnings growth in the current financial year ending March 31, 1988, and that it planned to participate in three new developments in Hong Kong calling for a total investment of more than 4 billion dollars.

BankAmerica's Loss Grew To \$1.1 Billion in Quarter

SAN FRANCISCO — BankAmerica Corp. said Thursday that its loss grew to \$1.14 billion in the second quarter from \$640 million in the year-carlier period, mostly due to its decision to set aside an additional \$1 billion to cover possible loan losses in the developing world.

The nation's second-largest banking company, whose principal subsidiary is Bank of America, posted a loss of \$1.07 billion in the first six months of the year, compared with a loss of \$577 million in the first half

The banking company had predicted a second-quarter loss of \$1.1 billion when it announced its decision to boost its loan loss reserves on The bank noted improvement in credit losses, which declined for a

third consecutive quarter, and a decrease in nonperforming loans. Brazil's continued inability to pay interest on its medium- and long-term debt cost BankAmerica \$38 million in net income for the second quarter. But the sale of the banking company's West German credit card operations and its consumer trust division, Bankhaus Centrale Credit AG, netted it \$102 million.

Salomon Off 66% to \$40 Million

NEW YORK - Salomon Inc. said Thursday that its second-quarter profit plunged 66 percent to \$40 million from \$117 million one year ago, partly because of sharply lower earnings at Salomon Brothers, the nation's largest securities firm.

Earnings dropped to 26 cents a share from 78 cents, on revenue down 12.5 percent at \$1.4 billion from \$1.6 billion.

Recond-quarter profit rose 26 percent to \$154 million from \$122 million one year ago, largely on strong domestic and international demand and

Delta Air Lines Improves 65%

ATLANTA — Delta Air Lines Inc. said Thursday that profit jumped 65 percent to \$58.8 million for the fourth quarter ended June 30, from \$22.2 million in the year-ago period.

Earnings rose to \$1.21 a share from 55 cents, on revenues up 41 percent at \$1.57 billion from \$1.11 billion.

and profils or losses, in millions, are in local currencies uniess otherwise indicated.

Becton DickInson John Gutfreund, chairman and chief executive officer, said the second quarter was disappointing, but cited "unprecedented conditions" in the bond markets, where prices and issuing volume fell as interest rates rose.

(AP) Revenue 852 Add Quar. 1997 1996 2nd Quar. 1997 2nd Qua Robins (A.H.) IRVINE, California — Financial Corp. of America said Thursday that it plunged to a loss of \$176.8 million in the second-quarter, as expected, after an \$11.6 million profit a year earlier, largely because of a \$165.5 million addition to its reserve for losses on loans and real estate.

However, the company's operating loss improved to \$9.7 million, holding, and the loss of \$17.3 million a year earlier.

The company of the largest sympes and loan association in the second-quarter, as expected, and quarter, as compared with a loss of \$17.3 million a year earlier.

The company, parent of the largest savings and loan association in the United States, said the reserve addition increased its total reserve to (Reuters)

\$973.6 million at June 30.

Revenue

** Tecond-quarter profit rose 26 percent to \$154 milhon from \$122 milhon one year ago, largely on strong domestic and international demand and its cost-cutting measures.

Profit totaled \$1.44 a share, up from \$1.13, on revenues up 12.5 percent at \$3.6 billion from \$3.2 billion.

Paul A. Allaire, the company president, said there was a strong international market for the company's copier equipment, particularly its international market for the company's copier equipment, particularly its low- and mid-range machines.

"In June and thru mid-July, the

amount of capital inflow from the Japanese has been at record levels," he said. "They are selling yen because they want to get involved in OUr markets."

In Europe, the dollar closed lower Thursday on bearish sentiment

ended at \$1.6025, against \$1.5970. M-1 Fell \$7.1 Billion in Week

Reasers NEW YORK - M-1, the nar-. rowest measure of U.S. money sup-ply, fell \$7.1 billion to a seasonally adjusted \$743.3 billion in the week ended July 13, the Federal Reserve said Thursday. The previous week's dollar was fixed lower in Frankfurt M-1 level was revised to \$750.4 at 1.8567 DM after 1.8601 Thursbillion from \$749.9 billion. M-1 indollar "is still looking upward for chudes cash in circulation, checking the simple reason of strong capital accounts and travelers checks.

would show a 0.5 percent increase, instead of the 1.5 to 2.5 percent widely predicted by economists.

Congressional testimony by the outgoing Federal Reserve chairman, Paul A. Volcker, did not help the dollar, either. Mr. Volcker said the prolonged stability of the U.S. currency would depend faster economic growth abroad and on cuts in the massive U.S. budget delicit.

Dealers saw little sign of any action on the deficit, particularly after news that bipartisan negotiations in the Senate to reduce the

deficit had collapsed. In London, the dollar fell to 1.8555 DM from 1.8640 DM on Wednesday and to 150.75 yea from

152 35 Sterling recovered some ground against other currencies after Wednesday's sharp fall sparked by worse-than-expected British tradefigures for May. It rose to \$1.6035 against the dollar from \$1.5947. In earlier European trading, the

day, and in Paris at 6.1820 French

francs, after 6.1916.

(UPI, Reuters)

Pressed by U.S., Seoul Plans to Appreciate Won

Agence France Press SEOUL - The South Korean finance minister, Chung In Yong, said Thursday that the government was planning a sharp approciation in the value of he won.

"A drastic appreciation of the won is inevitable in the last quarter of the year in view of the widening trade gap and mounting U.S. pressure," he

South Korea's merchandise trade surplus with the United States reached a record \$4.4 billion in the first half of this year Mr. Chung said, however that the government would keep the exchange rate at an

average of 800 won to the dollar this year. Newspapers in Seoul interpreted this to mean that the government would move to appreciate the won to a level of 760 to 780 to the dollar by the end of this year. The rate now stands at 807 won to the dollar.

Outlook for Japanese Bonds Is Cloudy Despite Stabilization

TOKYO - The recent drop in Japanese government bond prices may have ended, but the market's longer-term outlook is clouded by uncertainty over exchange rates, interest rates and the health of Japan's economy, bond man-

agers say. The yield on the government's benchmark No. 89 bond, the 5.1 percent issue due in 1996, touched 4.88 percent in Tokyo on Wednesday, its highest level since late January. In May, it

was as low as 2.55 percent. September government bond futures fell to a contract low of 105.73, or a yield of 5.132 percent on Monday on the London International Financial Futures Exchange, before re-

covering to 106.95 on Wednesday. "I think prices have fallen enough in the past few weeks and that downward potential is highly restricted for now," said Norihiko Sato at Mitsui Mutual Life Insurance Co. "We are in a

good position for bargain hunting," The view that prices have hit a temporary Estion is partly due to three recent bond purchase operations conducted by the Finance Ministry, which helped underpin the market, set," said Hideo Asaka, manager at Saitama managers said. But the direction of monetary policy remains

On one hand, the Finance Ministry is committed to the enhancement of domestic demand by keeping interest rates low, managers said.

Yet the Bank of Japan seems to be more con-cerned about a possible rekindling of inflation. On Wednesday, central bank sources said a rise in the long-term prime rate would not gravely affect the Japanese economy.

The market interpreted the comments as an indication that the central bank would accept a marginal increase in the long-term prime rate, now at a record low of 4.9 percent. The longterm credit banks want the rate raised to at least 5.2 percent, due to poor demand for their debentures, set at a rate 0.9 point below the prime, market sources said.

"The market will stabilize when monetary authorities finally set their course, whatever it is, and we'll see this when the long-term prime rate and terms on the new August bond are

The managers said that Japanese investors are also hoping that any new trends in the yen/dollar exchange rate which emerge after the U.S. Treasury quarterly refunding in early August will give them a clearer outlook on the ven bond market.

"The dollar/yen exchange rate is the key," he added, "because it is the yen's sharp rise that created the bond market boom in May."

Some market participants expect U.S. Treasury officials to talk the dollar lower, but only after the Treasury's quarterly refunding in August, where the dollar's level will help determine

But many export-oriented manufacturers racciano underlines Mellon's deter-and some bond investors predict the yen/dollar rate will stay around the current level of 150 to 152 yen for the rest of the year.

Whether the sluggish economy is due for rebound is another matter for debate.

Chief Resigns At Texas Bank

The Associated Press

DALLAS -- Robert H. Stewart 3d, chairman of First RepublicBank Corp., who was instrumental in the merger that created the largest bank holding firm in Texas, is resigning the post he held for six weeks.

Mr. Stewart, 61, is leaving after last month's merger of InterFirst Cosp. and Republic-Bank Corp. He will join LaSalle Energy Corp. as vice chairman. LaSalle was formed June 30 to acquire United Gas Pipe Line Co. from Occidental Petroleum Corp. United controls 9,800 miles (about 16,000 kilometers) of natural gas pipeline in the southeastern United States.

The First RepublicBank board was expected to elect Gerald W. Fronterhouse, 51, president and chief executive officer, to replace Mr. Stewart.

GE: Swap Benefits Thomson in Consumer Electronics

(Continued from first finance page) nancial services with the purchase of Kidder, Peabody & Co., an investment banking house, last year and Employers Reinsurance in

In Paris, Mr. Gomez said the rationale behind the agreement was to carry Thomson to the interna-

tional forefront in the consumer electronics sector. "Combining GE-RCA with Thomson positions us as a major world player in consumer electronics — one of the three leaders.

He said Thomson Grand Public would have access to research and manufacturing facilities in the United States, Europe and South-

alongside Philips and Matsushita,

east Asia. GE's stock rose 50 cents Thursday to close at \$56,625 on the New

York Stock Exchange. Company officials would not say whether there were plans to export RCA or GE brands to Europe, or bring Thomson brands to the Unit-

BOOKS

THE CITY AND THE HOUSE, by Natalias Ginzburg. Translated from the Italian by Dick Davis. Server. Books, 333 Central Park West, New York, N.Y. 10025.

There are some literary virtuosi who can leap across genres as stylishly as Superman hurdles tall buildings. Among this small group of pro-tean talents, the Italian novelist Natalia Ginzburg must surely have a special place. In addition to being a member of the Italian parliament, Ginzburg is a well-regarded European poet, critic, essayist, short story writer, and prize winning dramatist and novelist. It is probably the cool, understated novelist

who is best known to American readers. In such previous works as "A Light for Fools," "Family Savings," and "No Way," she has served us violent death and bereavement as calcula as the magning toest. "The City and the calmly as the morning toast. The City and the House," her latest novel, is no exception.

Like "No Way," her new book is also an intriguing collection of letters. These letters tell

the story of two friends and former lovers, Giuseppe and Lucrezia, and the disintegration. of their families. Bored with their lives and depressed to one day discover themselves mid dle-aged, each makes a fateful decision. Giuseppe recidessly sells his apartment in Rome, where he can no longer breathe, and huris himself into America in hope of a sea change. With no less melodrama, the married Lucrezza takės a new lover.

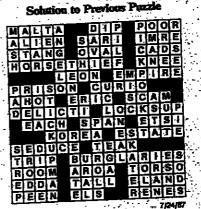

In "The City and the House," Natalia Ginzburg's fictive correspondence is impressive, her aesthetic achievement, however, is of a more subtle and complex order. Not only has she given us a collection of letters, but a novel and a world as well. (Gerald Jay Goldberg, WP)

PAUPER, BRAWLER AND SLANDERER, by Ames Tutuola. Faber and Faber, 39 Thomp-

son Street, Wischester, Mass. 01890.

"Pauper, Brawler and Slanderer," the Nigerian storyteller Amos Tutuola's eighth work, will do almost as well as the others for the reader who wants to excounter Tutuola's magi-

Typically, Tutuola uses allegorical figures to demonstrate his thesis and teach a lesson. As a moralist, he works within the traditions of the oral storyteller - in this case his own Yoruba heritage. In this newest novel, much of the

conflict stems from the three main characters. all of whom have been cast out of the village of their patrimony, forced (one might say) into a reluctant journey toward self-awarene

Thus there is the quest of the three characters, the fearful forest through which they travel and the dreadful (though not siways evil) creatures they encounter along their way. Pauper is the most sympathetic, never able to break away from his fated misery.

It doesn't help that his companions are his wife, Brawler (who even "used to brawl continuously also in her sleep"), and his sidekick Slanderer, a trickster who always takes advantage of his poor friend.

The conclusion of Tuttoola's exemplary tale is somewhat contrived. After learning that desis somewhat contrived. After marring that des-tiny is inescapable, Pamper, Brawler and Slan-derer vanish. Though this ending is appropri-ate within the dictates of the oral tradition, it is less satisfying for written narrative, less won-drous than the conclusions of Tutnola's earlier (Charles R. Larson, WP) WORKS.

LOVE IS THE HEART OF EVERYTHING: Correspondence Between Vizdimir Maya-kovsky and Life Brik 1915-1930; edited by Bengt Jassfeldt, translated by Julian Graffy. Grove Press, 196 West Houston Street, New York, N. Y. 10014.

This book - 416 effusive letters, notes, postcards, and telegrams — does not so much chronicle the passionate liaison between Vladimir Mayakovsky (1893-1930) and Lili Brik (1891-1978) as testify, like the wreckage after a tornado, to its stormy excess. Julian Graffy translation is generally deft, and Rengt Jang feldt's editing as learned and detailed as one could wish. But the Swedish professor's claim that 'Mayakovsky and Brik "are one of the most remarkable pairs of lovers in the history of model Ferragana" cells for more than the of world literature" calls for more than these ardess — though admittedly live — documents

Mayakovsky (who in 1935 was posthamously immortalized by Stalin as "the most taleated poet of our Soviet epoch") first met Lili Brik and became her lover in 1915. A beautiful dilettante (would be film actress, scriptor, dancer) and intellectual hostess, she was in charge of the affair from the beginning; and many people, including the poet's mother, Alexandra Andreyevna, believed he would not have killed himself had Lili not been absent. In any case, her husband Osip completently see onded their relationship (the Briks had given up sleeping together several years before), which lasted until 1925 despite a number of infidelities on both sides (and an illegitimate daughter casually fathered by Mayakovsky during a brief stay in the United States). Thereafter, the lovers remained the closest of friends until Mayakovsky put a builet through his

heart in 1930. Certainly the letters give us a clear and powerful impression of the hulking, boisterous (when not sullen), volatile, imposing Maya-kovsky, a man fairly bursting with energy and sexual magnetism. The more worldly, conventional, and (despite all the exclamation points) controlled Brik (who signed her letters with the sketch of a small cat) makes a less striking (Peter Heinegg, LAT)

Seeking the Other Side to Strawberry

New York Times Service

NEW YORK - When Darryl Strawberry was a rookie four years ago, a veteran catcher on the Mets observed the 21-year-old's ability to crunch a baseball, to fly around the bases, and to fling a throw from the right-field corner with the power of no one, perhaps, since Roberto Clemente.

"If Darryl works at it," said catcher John Stearns, "he could be the greatest player ever. If he doesn't, he'll be a great player."

فحكة فالمناس والراران

During that rookie year, 1983, Jim Frey, then a Mets coach, was given 6-foot-6-inch (1.98 meters) Strawberry as a special project. One of Strawberry's weaknesses, and it is a common problem among outfielders, was charging base hits in front of him. Frey would take Strawberry out early before a game and hit balls to him in the outfield

One day in Philadelphia, Frey said, "Darryl, let's go." Strawberry said, "Tve had enough."

"What do you mean, you've had enough?" asked Frev.

"Had enough," explained Strawberry. And he stopped taking the ground balls. He didn't endear himself to some of the pitchers when, with a runner on first and a hit to right, the runner invariably steamed safely mio third.

Other times, he missed the cutoff man and would show off his strong arm and rifle the ball to third, where the man was in safely, while the man who had singled was loping gaily into second base.

It was not surprising that Strawberry, being a left-handed batter, was less capable against left-handed pitchers than he was against right-handers, and was often rested, as the euphemism goes, against left-handers. What was surprising was that he often didn't even want to take batting practice against left-handers.

At the plate, he was sometimes less than a brain surgeon. He always took the first pitch, and pitchers threw it down the middle for a strike, and so he regularly gave them an

He even tried to pull balls on the outside corner, and he'd hit them weakly.

And through the years, he has disappointed and infuriated teammates by often showing up late for games and practices, and, in the case of a now famous spring training inciden, not showing up for a workout at all, drawing a fine of \$1,500.

Darryl Strawberry rounds the bases.

"This has been festering for three years," said his manager, Dave Johnson. In Chicago in the early part of the season, Strawberry, asserting that he slept through a 10 A.M. wakeup call, got to the park around noon, and was fined again.

And a few weeks ago, he begged off a game cause he said he was ill, though he was involved in a recording project that day. He

also missed the next game. That's when Lee Mazzilli and Wally Backted him to reporters, saying, "Hey, what kind of business is this? You're a profes-

sional We need you." Fans boord him at Shea, and around the league, they've adopted a derisive chant —
"Darr-yl, Darr-yl" — the way kids might
taunt one another with "Ba-by, Ba-by."

expecting too much from him, that he couldn't carry a whole team on his back. And there were other problems. Like a difficult divorce that, it seems, may have made him lose concentration at the plate, and

watch 3-2 fastballs whip in for strike three. "I remember when I was being served papers for my divorce," said Pete Rose, now the manager of the Cincinnati Reds, "and I went out and got 7 hits in 12 times at bat. People said, 'How can you concentrate on hitting?' I said, 'It's easier going through a divorce hit-ting 330 than hitting 230."

Yet, for all of Strawberry's negative quali-

ties, this is only half the story.

In the past four years, he has been one of the most consistent and effective players in the game. Though his batting average was only .260 in that time, only five other players in the National League drove in more runs in the same span and he was the only player to hit 100 homers or more and steal 100 bases or

His statistics are up this season. He's hitting .271, with 21 homers - nine of them off left-handers - and has driven in 52 runs -27 off left-handers. At this rate, Strawberry would finish with about 40 homers and 100 runs batted in, which would be his best fig-

He's not as erratic as he once was in the outfield, and spends more time taking ground ills and in the batting cage, even against left-banders.

And it may come as a surprise to some, but he leads the team in appearing in the most

games this season, 87 out of 90. The fans, the teammates, the manager, the sportswriters, the family, they have all at one time or another, one way or another, gotten to Strawberry. And he's gotten to them. Would he change? Could he change?

A few years ago he related a story about when he arrived in the minors, in Kingsport, Tennessee, and climbed aboard a team bus for a 10-hour trip. He cleverly staked out the back seat, where he could stretch his long legs. He wondered why everyone hadn't made a mad dash for that seat.

. He soon learned the reason. The motor was under the seat, and the sun hit hardest through the wide rear window.

"It didn't take long to figure out," he said, "that if I didn't move, I'd fry." To figure out similar things in the big

leagues, it has, unfortunately, taken Darryl

Strawberry a much longer time.

BASEBALL ROUNDUP

sion, the Orioles are giving every indication that they will not be pushovers for the rest of the year. The Orioles made it eight victories in a row Wednesday night, downing the Chicago White Sox, 10-5. It marked the Orioles' longest winning streak in four years and gave them a sweep of the six games at Comiskey Park this year.

John Habyan, who failed as a starting pitcher, was the star for Baltimore, pitching 61/2 innings in relief of Mike Boddicker to nail down the triumph. Habyan retired the final 19 batters he faced.

"Tve been in the bullpen for a while," said Habyan, who entered the game with a 6.28 ERA. "You get a lot of time to think out there. I've been watching the other guys and working real hard. I've had some up and down days, but I've tried not to lose my confidence."

Habyan entered the game with two on and two out in the third, phia, Juan Samuel collected three After allowing a single, he was untouchable.

SAN JUAN, Puerto Rico — Eight years later, Bobby Knight, the boom is over, and the recovery Indiana University basketball coach, has apologized for "misunderstand- hasn't started, although the Tuesings" stemming from a 1979 incident in which he allegedly hit a San Juan day session at Keeneland was iceman while he was coach of the U.S. team in the Pan Am Games. markedly stronger than Monday's. Knight expressed regret in a letter to German Rieckehoff, president of the Puerto Rico Olympics Committee. "I feel very sorry for all the all at Keeneland. The top price of misunderstandings that resulted from that incident and deeply appreciate the sale was \$3.7 million and the those people like you who, whether they agree with me or not, are willing average was \$371,030. That was a to bring this chapter to a close," Knight said. Rieckehoff has urged the drop of 9 percent from last year, government not to consider further legal action against Knight.

Knight was charged with assaulting a policeman and summoned to appear before a judge in Puerto Rico, but left the island before a trial. He refused to return and Indiana officials rejected requests to extradite alogue of yearlings that has ever Knight to face the misdemenor charge. Knight was tried in absentia, been assembled, and a high perbought \$500,000, \$400,000 and found guilty and sentenced to a six-month prison term.

Yearling Barometer Says No Price Recovery Yet mation," said Bill Oppenheim, edi-By Andrew Beyer tor of the industry newsletter Washington Past Service Racing Update. "On Monday, es-

LEXINGTON, Kentucky -- Although few people can afford the high stakes involved in the Keeneland Yearling Sales, just about everyone in the horse business was watching the results of the auction with great interest.

The average price of a yearling sold at Keeneland is a barometer of the thoroughbred market, just as the Dow Jones industrial average is a measure of the health of the New

e 1970s, they triggered So before the two-day sale began

was rampant: Had prices hit bottom? Was the thoroughbred business about to start a recovery? By mid-afternoon Monday. when yearling No. 72 passed through the ring, the answer was clear. No. 72 was a son of Nijinsky II, the world's most fashionable sire now that Northern Dancer has

been retired. In recent years, he was instead of driving up the price. the type of horse who would have brought \$3 million, \$4 million, maybe more if the bidders had gotten into a frenzy.

But the bidding for this son of Nijinsky II was very tame, and an

and last year's sale was a 24 percent

Arab buyer acquired him for \$1.3

million. The great thoroughbred

What is going on? The great boom in thoroughbred prices had been a classic speculative mania, and the current drop is an inevitable correction. The boom had been fueled largely by two groups of York Stock Exchange. bidders — Robert Sangster and his When well-bred yearlings at British associates, and the Makbidders - Robert Sangster and his Keeneland regularly started to tourn brothers of Dubai. Their ribring prices of more than \$1 mil-valry drove up the prices of a few

pecially, the buyers just weren't there. You wouldn't believe the

The Take-Out Chef Comes to Dinner the time he returned, he had regis-

The state of the s

By Trish Hall New York Times Service

N EW YORK — The proposi-tion was intriguing. Put a French chef in a minuscule New York kitchen. Deprive him of his own stove and copper pots, fresh herbs ready for snipping and fish plucked wide-eyed from Long Island Sound. What would he pro-

There was only one way to force the chef and cookbook writer Pierre Francy into a confrontation with kitchen ingredients like stale bread and frozen dinners. The plan: to accost strangers in supermarkets as they shopped; to swoop without warning, giving them no chance to cheat and buy fancy things like lettuce. They would have to take him home right then and there and reveal their cupboards, with a reporter tagging along.

The first night, we headed for a Food Emporium on the Upper East Side. Our target: a nice yuppie. Within moments, we spied him, tall, looking like a London banker, lounging by the delicatessen counter. The ingredients in his basket - a slice of watermelon, a small bag of corn chips and a few carrots - marked him as a

single man.
"Excuse me," I said, flashing a book-jacket photograph of the chel, "but would you be willing to take us home and let Pierre Francy cook your dinner?" Our yuppic, a venture capitalist ed Floyd Evenson, had no idea who Pierre Francy was, but he said yes immediately.

While Evenson cheerfully picked lint from his rug, Francy inspected the refrigerator. In terms of raw materials, this turned out to be the week's greatest challenge. Francy, who apprenticed as a cook in France in 1934, would meet — and use for the first time — garlic powder.

Once our proposition was accepted, the rules were simple. Francy would have to cook with whatever was at hand, armed only with his own measuring spoons, a measuring cup and one sharp

The knife proved unnecessary at Evenson's apartment, which was relatively well equipped. Food was another story. The re- asked.

frigerator contained celery and part of a honeydew melon, but no other produce, unless you consider ketchup a vegetable.

Evenson, who said he shops every day for what he will eat that night, had planned a dinner of raw carrots, apple juice and corn chips, followed by pasta in a butter, oil and mustard sauce. "There's lots of things for you to play with," he said.

Well, not exactly. The cupboard yielded tomato paste. Less inspiring was an ancient head of gardic. Francy turned the cloves to dust with a squeeze. Back to the cupboards he went, this time finding garlic powder. "It's against my religion," he said, but we all agreed the situation was desper-

Evenson offered him some sliced turkey. "It's salt free," he said. A nod of acceptance from the chef, who rummaged some

more. You don't have onions?" he

"It's gone," Evenson said.
"Sorry, the onion is gone." What about a vegetable scrap-

"I never scrape my vegetables." Evenson said. But Francy does. So, using a

knife, he began scraping the carrots. After an hour and a half, he had spaghetti, carrots and fruit balls on the table. Evenson, who offered wine as a cocktail and corn chips as an appetizer, pro-nounced the meal "wonderful."

Thus inspired, we headed for Brooklyn. Again, we quickly spied our prey: a young woman with a child in her shopping cart, which was filled with frozen com. ground turkey, milk, orange juice, eggs, butter, ice cream and potato thips - the staples of the Ameri-

can family diet. The woman, Georgie André, agreed with alacrity to our proposal; that she, too, had never heard of our famous chef seemed no deterrent.

André, an architect who works

EMPLOYMENT

tered the fact that strangers had invaded in kitchen "OK," he asked, "who are these people?" Joel André, a native of Haiti,

ended up chatting in French with Francy, who continued foraging, producing cloves, nutineg and grated cheese. I have to find something else, "Francy muttered as he searched through the refrigerator. Mustard? No. Speciatii sauce? No. Vinegar? Yes. The perfect underpinning for a sauce.

At 7:15, the Andres sat down. said grace and ate. Andre pro-nounced the meal better than leftover chicken. Learent asked for

Two nights in kitchens with few fresh vegetables had left our chef craving greenery. In Rego Park, we watched as a woman carefully inspected vegetables. We swooped. Our target, Frances Riordan, asked only that she be allowed to invite her son, David, and her daughter-in-law, Joan for dinner. They had not heard of Francy, but rushed over; any thing was possible in a family that had almost made it onto the television game show "Family Fend."

Riordan had a blender, a coffee pot, skillets of every size and a refrigerator filled as densely as a forest. "Before she started her-diet," David Riordan said, "it was even fuller." She had tomatoes, potatoes and sardines. She had onions, lemons and thyme.

The bounty was inspiration "Tonight," Francy declared, "will be something!"

And it was: a platter of zucchi ni, egg. tomatoes and sardines, scallops in a cream sauce; sauted com, and fresh strawberries with

A tour de force, Riordan said, murmuring appreciatively as Francy finished cooking the scalcooked rice. What about cheese? "If you find something that looks lops with a quick flip of his wrist funny," André said, "it should be that neatly tossed the ingredients in the air. "If I did that," she said, To Francy's delight, there was "it would be all over the stove." onion and garlic, and a good cur-

Drawing conclusions about New Yorkers' cooking and cupboards is a bit risky. But a few things do seem clear. Turkey is big. So is corn. Most people keep Mommy," he said. "I want rice good knives around. And they Joel André arrived and greeted the visitors with a casual hello will say yes to just about anything before heading off to change. By if you offer to cook for them.
